VERSA PAK PRO Safety Instruction Guide

Introduction

Thank you for choosing the VERSA PAK PRO by REDDING. This product is designed to enhance your reloading experience with advanced features and precision tools. It is important to follow the safety guidelines and instructions outlined in this manual to ensure safe and effective use.

General Safety Guidelines

- Ensure the product is used only for its intended purpose.
- Keep the product out of reach of children and vulnerable individuals.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when using the product.
- Inspect all components for damage before use. Do not use damaged parts.
- Follow local regulations and guidelines regarding the handling and use of ammunition and reloading materials.
- Store all components in a cool, dry place away from direct sunlight and moisture.
- Report any unsafe products or accidents to the relevant authorities.

Specific Safety Precautions for Use

- Do not exceed the maximum load specifications for any component.
- Ensure the workspace is wellventilated to avoid inhalation of any dust or fumes.
- Avoid distractions while operating the equipment.
- Keep hands and other body parts clear of moving parts during operation.
- Use caution when handling sharp tools, such as the deburring tool.
- Follow the manufacturer's instructions for each component to prevent misuse.

Instructions for Installation and Usage

1. Setup of the VERSA PAK PRO:

- Unpack all components carefully and check for completeness against the provided list.
- Place the Model 2400 Case Trimming Lathe on a stable surface.
- Ensure the lathe is securely fastened to prevent movement during operation.

2. Using the Model 2400 Case Trimming Lathe:

- Adjust the micrometer to the desired trimming length according to your specifications.
- Insert the case securely into the lathe.
- Start the lathe and monitor the trimming process closely.
- Once trimming is complete, turn off the lathe and safely remove the case.

3. Using the Model 3BR Powder Measure:

- Calibrate the powder measure according to the load specifications.
- Fill the powder hopper with the appropriate powder.
- Use the powder trickler for precise powder measurements.

4. General Operation:

- Always refer to the Hodgdon Annual Manual for guidance on proper handloading techniques.
- Use the powder funnel to avoid spillage when transferring powder to cases.

- After using the tools, clean them thoroughly and store them in their designated places.

Disposal Instructions

- Dispose of any unused or expired reloading materials according to local hazardous waste regulations.
- Do not dispose of ammunition or reloading components in regular trash.
- Recycle packaging materials where possible.

Contact Information for Further Support

For any questions or concerns regarding the VERSA PAK PRO, please refer to the manufacturer's website or customer service resources. It is essential to have access to an EUbased contact for safety inquiries.

Thank you for your attention to these safety instructions. By following these guidelines, you can ensure a safe and enjoyable reloading experience with your VERSA PAK PRO.
