

LEAD THERMOMETER - RCBS LEAD THERMOMETER

[Reloading](#) > [Bullet Casting](#) > [Casting Furnaces & Accessories](#)

With a 1000°F range and +/- 1% accuracy, RCBS lead thermometer lets you pour lead at the optimum temperature. Large numbers are printed on a 1-1/2", glass-covered face. Six inch probe works with RCBS® Pro-Melt furnace or pot. An adjustable 6" handle helps to prevent burning your fingers.

Attributes

- Name: [RCBS LEAD THERMOMETER](#)
- Manufacturer: [RCBS](#)
- Product no.: 749014232
- Mfr. No.: 81175
- Delivery weight: 0.077kg
- Shipping height: 51mm
- Shipping width: 51mm
- Shipping length: 178mm
- UPC: 076683811752

RCBS Lead Thermometer Safety Instruction Guide

Introduction

Thank you for choosing the RCBS Lead Thermometer. This guide provides essential safety instructions to ensure the safe and effective use of your thermometer. Please read this document carefully before use to understand the safety precautions and operational guidelines.

General Safety Guidelines

- Ensure that the thermometer is used in a wellventilated area to prevent the accumulation of harmful fumes.
- Always wear appropriate personal protective equipment, such as heatresistant gloves and safety goggles, when handling molten lead.
- Keep the thermometer out of reach of children and pets to prevent accidents.
- Do not use the thermometer for any purpose other than measuring the temperature of molten lead.
- Regularly inspect the thermometer for any signs of damage or wear before each use.

Specific Safety Precautions for Use

- Avoid direct contact with the probe when measuring high temperatures to prevent burns.
- Do not immerse the thermometer in water or any liquid after use, as this may cause damage.
- Always allow the thermometer to cool down completely before storing it.
- If the thermometer breaks or malfunctions, cease use immediately and report the issue to the manufacturer.
- Be cautious of the high temperatures involved in lead melting; ensure that the thermometer is stable and secure during use.

Instructions for Installation and Usage

1. Preparation:

- Ensure that the thermometer is clean and free from any debris before use.
- Check that the probe is securely attached to the thermometer body.

2. Using the Thermometer:

- Insert the 6inch probe into the molten lead, ensuring that it is fully submerged but not touching the bottom of the pot or furnace.
- Wait for a few seconds until the thermometer stabilizes and displays the temperature reading.
- Monitor the temperature closely and adjust the heat source as necessary to maintain the optimum pouring temperature.

3. PostUse Care:

- After use, carefully remove the probe from the molten lead.
- Allow the thermometer to cool down completely before handling.
- Clean the thermometer according to the manufacturer's instructions, avoiding any abrasive materials that may scratch the glass face.

Disposal Instructions

- Dispose of the thermometer in accordance with local regulations regarding electronic waste and hazardous materials.

- Do not dispose of the thermometer in regular household waste. Instead, contact your local waste management facility for proper disposal methods.

Contact Information for Further Support

For any safety inquiries or concerns regarding the RCBS Lead Thermometer, please refer to the manufacturer's contact information provided with your product packaging or visit the official RCBS website.

By following these safety instructions, you can ensure a safe and effective experience while using the RCBS Lead Thermometer. Always prioritize safety and consult this guide whenever necessary. Thank you for your attention to these important safety measures.
