

# CHAMBER TYPE BULLET SEATER DIES - L.E. WILSON 6MM CREEDMOOR BULLET SEATING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Wilson chamber type bullet seater is a favorite among benchrest shooters. A chamber type bullet seater positively controls both bullet and cartridge case alignment. The case and bullet are completely captured by the die prior to the bullet being pushed straight into the case by a close-fitting seating stem. This style of bullet seater works more accurately than a conventional 7/8 inch to 14 bullet seating die. This is one of the most accurate bullet seaters ever made!

## Attributes

# CHAMBER TYPE BULLET SEATER DIES L.E. WILSON 6MM CREEDMOOR BULLET SEATING DIE Safety Instruction Guide

## Introduction

Thank you for choosing the L.E. Wilson 6mm Creedmoor Bullet Seating Die. This product is designed for precision bullet seating, particularly favored by benchrest shooters. To ensure your safety and the effective use of this product, please read and follow the guidelines outlined in this safety instruction guide.

## General Safety Guidelines

- **Product Safety:** Ensure safe use of the bullet seating die by adhering to all provided instructions. This product is designed to meet EU safety standards.
- **Enhanced Recalls:** Stay informed about potential recalls related to this product. If you receive a recall notice, follow the instructions provided.
- **Online Shopping:** If purchased online, ensure that the retailer complies with safety standards equivalent to those of physical stores.
- **Special Consumer Focus:** This product is not intended for use by children. Keep out of reach of minors.
- **EU Contact Point:** For any safety inquiries, please refer to the appropriate EU contact point.
- **Rapid Alerts:** Monitor the EU Safety Gate platform for updates on any safety issues related to this product.

## Specific Safety Precautions for Use

- Always wear appropriate eye protection when using the bullet seating die.
- Ensure that the workspace is clean and free of obstructions to prevent accidents.
- Do not exceed the recommended specifications for bullet and cartridge case sizes.
- Inspect the die for any signs of damage or wear before each use.
- Use only compatible components as specified in the product documentation.
- Never attempt to modify the bullet seating die or its components.
- Store the die in a secure location to prevent accidental use by unauthorized individuals.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure your reloading press is securely mounted.
- Insert the bullet seating die into the press according to the manufacturer's instructions.
- Tighten the die securely to prevent movement during operation.

### 2. Usage:

- Prepare your cartridge cases and bullets as per your reloading procedures.
- Place the cartridge case into the die, ensuring it is seated properly.
- Insert the bullet into the case mouth.
- Use the seating stem to push the bullet into the case. Ensure that the bullet is aligned properly to avoid misalignment.
- Once the bullet is seated, remove the cartridge from the die and inspect for proper seating depth.
- Repeat the process for additional cartridges.

## **Disposal Instructions**

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not dispose of the bullet seating die in regular household waste. Check with your local waste management authority for proper disposal methods.

## **Contact Information for Further Support**

For any questions or concerns regarding the use of the L.E. Wilson 6mm Creedmoor Bullet Seating Die, please refer to your retailer or the manufacturer's website for additional support and resources.

By following these safety instructions, you can ensure a safe and effective experience with your L.E. Wilson 6mm Creedmoor Bullet Seating Die. Always prioritize safety and compliance with local regulations when handling reloading equipment. Thank you for your attention to these important guidelines.
