

FLASH HOLE DEBURRING TOOLS - RCBS FLASH HOLE DEBURRING TOOL W/.30 CAL PILOT

[Reloading](#) > [Case Preparation](#) > [Flash Hole Deburring Tools](#)

Burrs left on the inside of the flash hole during manufacturing can cause erratic ignition. This handy tool automatically locates the hole and quickly removes the burr. A self-centering pilot collar with an adjustable stop allows quick alignment and prevents the removal of too much brass.

Safety Instruction Guide for RCBS Flash Hole Deburring Tool with .30 Cal Pilot

Introduction

Thank you for choosing the RCBS Flash Hole Deburring Tool with .30 Cal Pilot. This tool is designed to help you remove burrs from the inside of flash holes, ensuring reliable ignition during the reloading process. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Ensure that the tool is used only for its intended purpose as described in this guide.
- Always inspect the tool for any damage before use. Do not use if the tool is damaged.
- Keep out of reach of children. This tool is not a toy and should only be used by adults or under adult supervision.
- When using the tool, wear appropriate personal protective equipment, such as safety glasses, to protect your eyes from metal shavings.
- Store the tool in a dry, secure location when not in use to prevent accidents and maintain its condition.

Specific Safety Precautions for Use

- Do not apply excessive force when using the tool, as this may lead to damage or personal injury.
- Ensure the tool is properly aligned with the flash hole before use to avoid mishaps.
- Avoid using the tool in wet or damp conditions to prevent slipping and ensure a firm grip.
- Always follow the manufacturer's instructions for use and maintenance of the tool.
- If you experience any discomfort or pain while using the tool, stop immediately and consult a medical professional.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary materials, including the tool and any additional equipment you may need for your reloading process.
- Ensure your work area is clean and welllit.

2. Using the Tool:

- Position the selfcentering pilot collar over the flash hole.
- Adjust the stop to align the tool correctly with the hole.
- Gently turn the tool to remove any burrs from the inside of the flash hole. Avoid applying excessive pressure.
- After use, clean the tool to remove any brass shavings or debris.

3. PostUse Care:

- Inspect the tool for any wear or damage after each use.
- Store the tool in its original packaging or a secure location to prevent damage.

Disposal Instructions

- Dispose of the tool in accordance with local regulations. Do not dispose of it in regular household waste.
- If the tool is damaged beyond repair, consider recycling the materials if possible.

Contact Information for Further Support

For any questions or concerns regarding the use or safety of the RCBS Flash Hole Deburring Tool, please refer to the manufacturer's website or contact their customer service for assistance. Ensure you have the product details on hand for a more efficient response.

Thank you for your attention to these safety guidelines. Your safety and the effective use of the RCBS Flash Hole Deburring Tool are our top priorities.
