

UNPRIMED 357 MAGNUM PISTOL BRASS - 357 MAGNUM BRASS 200/BOX

[Reloading](#) > [Brass](#) > [Pistol Brass](#)

HORNADY UNPRIMED 357 MAGNUM PISTOL BRASS Hornady unprimed brass features tight tolerances, uniform concentricity, consistent weight and capacity. Their manufacturing processes ensure consistent bullet seating and uniform bullet release for optimal velocity and accuracy. Target shooters insist on uniform case wall thickness and tight tolerances. Hornady delivers this by treating brass as the foundation for an accurate cartridge, not as a commodity.

Safety Instruction Guide for UNPRIMED PISTOL BRASS 357 MAGNUM BRASS 200/BOX

Introduction

Thank you for choosing Hornady Unprimed Pistol Brass. This product is designed for use in reloading ammunition for the 357 Magnum cartridge. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Always treat all brass components as potentially hazardous.
- Ensure you are familiar with the reloading process and the specific requirements for the 357 Magnum cartridge.
- Use personal protective equipment (PPE) such as safety glasses and gloves while handling brass and during reloading.
- Keep the product out of reach of children and unauthorized users.
- Report any unsafe products or accidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Ensure that the brass is clean and free from any contaminants before use.
- Inspect each piece of brass for signs of damage or wear before reloading.
- Follow the manufacturer's specifications for reloading data, including powder type and weight.
- Avoid overloading the brass beyond its recommended specifications.
- Store brass in a cool, dry place away from direct sunlight and moisture.
- Do not use brass that has been previously fired with unknown or excessive loads.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary reloading equipment and materials, including powder, primers, bullets, and tools.
- Ensure your workspace is clean and organized.

2. Inspection:

- Inspect each piece of brass for cracks, dents, or other deformities.
- Discard any brass that shows signs of damage.

3. Reloading Process:

- Follow the reloading manual for the 357 Magnum cartridge carefully.
- Use the appropriate die set for resizing and expanding the brass.
- Prime the brass using a reliable primer suitable for the 357 Magnum.
- Charge the brass with the correct amount of powder, ensuring it is within safe limits.
- Seat the bullet to the recommended depth according to the reloading manual.

4. Final Inspection:

- After reloading, inspect each round for proper bullet seating and overall quality.

- Store loaded ammunition in a safe and secure location.

Disposal Instructions

- Dispose of any damaged or unusable brass according to local regulations.
- Do not discard brass in regular waste. Check for local recycling programs that accept brass.
- Ensure that all components are disposed of safely to avoid environmental contamination.

Contact Information for Further Support

For any safety inquiries or further assistance, please refer to the official Hornady website or contact your local distributor for support.

Thank you for your attention to these safety instructions. Your commitment to safety ensures not only your protection but also the enjoyment of your reloading experience.
