

ADJUSTABLE PROFILE CRIMP DIES - REDDING 38 SPECIAL/357 MAGNUM ADJUSTABLE PROFILE CRIMP DIE

[Reloading](#) > [Reloading Dies](#) > [Handgun Dies](#)

Redding Micrometer Adjustable Profile Crimping Dies are top adjusting to simplify making precise adjustments because any variation in case length and wall thickness both adversely affect proper adjustment. Traditional Profile Crimp Die adjustment is both time consuming and imprecise due to the coarse 7/8 - 14 pitch die threads and the need to re-position the lock ring, this is especially important to users of progressive reloading presses with tight space constraints. The Micrometer Adjustable Crimping Dies have a knurled micrometer barrel situated on the top of the die for easy access and provides approximately $\pm .100''$ of "on-the-fly" adjustment in .001" increments.

Safety Instruction Guide for Redding Adjustable Profile Crimp Dies

Introduction

Thank you for choosing the Redding Micrometer Adjustable Profile Crimping Dies for your reloading needs. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read the entire guide before using the dies.

General Safety Guidelines

- Ensure that the dies are used in accordance with the manufacturer's instructions.
- Always wear appropriate safety gear, including eye protection, when reloading ammunition.
- Keep the workplace clean and organized to prevent accidents.
- Store the dies in a secure location away from children and unauthorized users.
- Regularly inspect the dies for wear or damage before use.
- Report any unsafe products or accidents to the relevant authorities.
- Check the EU Safety Gate platform for any recall updates related to this product.

Specific Safety Precautions for Use

- Only use the dies for the intended cartridges: .357 Magnum and .38 Special.
- Do not exceed the recommended adjustments as outlined in the product instructions.
- Ensure that the micrometer adjustment is securely locked before use to prevent accidental changes.
- Avoid wearing loose clothing or jewelry that could become caught in the equipment.
- Do not attempt to modify the dies in any way, as this can lead to unsafe conditions.
- Always follow proper reloading procedures to avoid dangerous situations.

Instructions for Installation and Usage

1. Installation

- Ensure the reloading press is securely mounted and stable.
- Remove any existing dies from the press and clean the threads.
- Screw the Redding Adjustable Profile Crimp Die into the press, ensuring it is tightly secured.
- Adjust the die height according to the manufacturer's specifications for the cartridge being used.

2. Usage

- Set the micrometer adjustment to the desired setting for crimping.
- Begin reloading by following the standard reloading process for your specific cartridge.
- Monitor the crimping process closely, making adjustments as necessary using the micrometer.
- After each use, clean the dies to maintain their performance and longevity.

Disposal Instructions

- Dispose of any damaged or worn parts in accordance with local regulations.
- Do not dispose of the dies in regular household waste. Contact local waste management authorities for proper disposal methods.

Contact Information for Further Support

For any inquiries regarding safety or usage of the Redding Adjustable Profile Crimp Dies, please consult the manufacturer's website or customer service. Ensure to have your product details ready for efficient assistance.

Thank you for your attention to these safety instructions. Enjoy safe and effective reloading with your Redding Adjustable Profile Crimp Dies.
