

DUAL RING CARBIDE SIZING DIE SETS - 44 MAGNUM DUAL RING CARBIDE SIZING DIE SET

[Reloading](#) > [Reloading Dies](#) > [Handgun Dies](#)

Dual Ring Carbide Sizing Dies are the correct answer to the compromise that has plagued traditional carbide dies of all manufacturers since their creation. The traditional sizing ring is required to perform double duty which it can not do. It is required to size the case sufficiently to secure the bullet (with even the thinnest brass) which all do with some success. From that point however, all traditional carbide dies resize the remainder of your cases excessively. The price of this compromise is shortened case life of your overworked brass, unsightly appearance and less than ideal chamber fit which may lead to an adverse effect on accuracy. The Redding solution is unique, incorporating two carbide rings within one sizing die. The upper ring is positioned to size only the bullet retention portion of the cartridge case while the other is configured to properly size the case body without overworking the brass. Your sized cases will not only look good and function better but brass life will increase. Sizing Die Set includes Dual Ring Carbide Sizing Die, Seater Die, and expander Die.

Attributes

- Name: [44 MAGNUM DUAL RING CARBIDE SIZING DIE SET](#)
- Manufacturer: [REDDING](#)
- Product no.: 749015846
- Mfr. No.: 01186
- Cartridge: 44 Magnum
- Delivery weight: 0.907kg
- Shipping height: 44mm
- Shipping width: 114mm
- Shipping length: 152mm
- UPC: 611760011863

Safety Instruction Guide for DUAL RING CARBIDE SIZING DIE SETS 44 MAGNUM

Introduction

Thank you for choosing the DUAL RING CARBIDE SIZING DIE SETS 44 MAGNUM. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read this guide thoroughly before using the product to understand the necessary precautions and instructions.

General Safety Guidelines

- Always handle reloading equipment with care and follow all safety protocols.
- Ensure that the workspace is clean, dry, and welllit to avoid accidents.
- Keep the product out of reach of children and unauthorized individuals.
- Wear appropriate safety gear, including safety glasses and gloves, when using this product.
- Be aware of your surroundings and ensure that no one is in close proximity while you are using the die set.
- Report any unsafe products or accidents to the relevant authorities and check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Ensure that the DUAL RING CARBIDE SIZING DIE SET is used only for the intended purpose of resizing 44 Magnum cartridge cases.
- Inspect the die set for any visible damage before use. Do not use if any part is damaged or worn.
- Follow the manufacturer's instructions for the proper setup and operation of the die set.
- Avoid excessive force when resizing cases to prevent damage to the die set and ensure the longevity of your brass.
- Do not exceed the recommended load limits for the cartridges you are working with.
- Store the die set in a secure location when not in use to prevent accidental injury.

Instructions for Installation and Usage

1. Setup the Sizing Die:

- Securely mount the sizing die in your reloading press according to the manufacturer's instructions.
- Ensure that the die is tightened properly to avoid any movement during operation.

2. Prepare the Cartridge Cases:

- Clean the brass cases thoroughly to remove any dirt or debris.
- Inspect each case for signs of damage or excessive wear.

3. Resizing the Cases:

- Insert the brass case into the sizing die.
- Operate the reloading press according to the manufacturer's instructions, applying steady and even pressure.
- Remove the resized case and inspect it for proper sizing.

4. Using the Seater Die and Expander Die:

- Follow similar steps for the seater die and expander die, ensuring that each die is set up correctly

and used as intended.

5. Final Inspection:

- After resizing and seating, inspect all cases to ensure they meet safety and quality standards before loading them with powder and bullets.

Disposal Instructions

- Dispose of any damaged or worn components of the die set in accordance with local regulations.
- Ensure that all used cartridge cases are disposed of properly and safely.
- Recycle brass cases where possible to minimize environmental impact.

Contact Information for Further Support
