

# DUAL RING CARBIDE SIZING DIE SETS - REDDING 45 COLT DUAL RING CARBIDE SIZING DIE SET

[Reloading](#) > [Reloading Dies](#) > [Handgun Dies](#)

Dual Ring Carbide Sizing Dies are the correct answer to the compromise that has plagued traditional carbide dies of all manufacturers since their creation. The traditional sizing ring is required to perform double duty which it can not do. It is required to size the case sufficiently to secure the bullet (with even the thinnest brass) which all do with some success. From that point however, all traditional carbide dies resize the remainder of your cases excessively. The price of this compromise is shortened case life of your overworked brass, unsightly appearance and less than ideal chamber fit which may lead to an adverse effect on accuracy. The Redding solution is unique, incorporating two carbide rings within one sizing die. The upper ring is positioned to size only the bullet retention portion of the cartridge case while the other is configured to properly size the case body without overworking the brass. Your sized cases will not only look good and function better but brass life will increase. Sizing Die Set includes Dual Ring Carbide Sizing Die, Seater Die, and expander Die.

## Attributes

- Name: [REDDING 45 COLT DUAL RING CARBIDE SIZING DIE SET](#)
- Manufacturer: [REDDING](#)
- Product no.: 749015849
- Mfr. No.: 01191

# Safety Instruction Guide for DUAL RING CARBIDE SIZING DIE SETS REDDING 45 COLT

## Introduction

Thank you for choosing the DUAL RING CARBIDE SIZING DIE SETS REDDING 45 COLT. This product is designed to enhance your reloading experience by providing a reliable and efficient sizing solution. This guide provides essential safety instructions to ensure the safe use of this product in compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Always read and understand the instructions before using the product.
- Ensure that the product is used only for its intended purpose.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of damage or wear.
- Report any unsafe conditions or incidents to the relevant authorities.
- Stay informed about product recalls through the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Use appropriate personal protective equipment (PPE) such as safety glasses and gloves while using the sizing die set.
- Ensure that your work area is clean, welllit, and free from distractions.
- Do not exceed the recommended pressure limits when sizing cases.
- Avoid using the dies with cases that are excessively damaged or deformed.
- Always follow the manufacturer's guidelines for the specific cartridge being used.
- Be cautious when handling reloaded ammunition; always treat it as if it is live ammunition.

## Instructions for Installation and Usage

### 1. Setup

- Ensure your reloading press is securely mounted on a stable surface.
- Gather all necessary tools and components, including the sizing die set, shell holder, and cases to be resized.

### 2. Installation of the Sizing Die

- Remove the sizing die from its packaging.
- Screw the sizing die into the press until it is firmly in place.
- Adjust the die according to the manufacturer's specifications for the cartridge being used.

### 3. Resizing Cases

- Insert the appropriate shell holder into the press.
- Place a case into the shell holder.
- Pull the handle of the press to raise the ram, which will push the case into the die for resizing.
- Lower the ram to remove the resized case from the shell holder.

### 4. PostUse Care

- Clean the sizing die after use to remove any debris or residue.

- Store the die set in a dry and secure location.

## **Disposal Instructions**

- Dispose of any damaged or worn components of the sizing die set according to local regulations.
- Recycle packaging materials whenever possible.
- Ensure that any unusable cases are disposed of in a safe and environmentally friendly manner.

## **Contact Information for Further Support**

For safety inquiries or additional support, please refer to the manufacturer's contact information provided with the product packaging.

By following these guidelines, you can ensure a safe and effective experience with your DUAL RING CARBIDE SIZING DIE SETS REDDING 45 COLT. Thank you for your attention to safety.
