

# COMPETITION BUSHING NECK DIE SETS - REDDING 28 NOSLER COMPETITION BUSHING NECK DIE SET

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Redding Competition Bushing Neck Die Set includes a Competition Bushing Neck Sizing Die, a Body Die, and a Competition Bullet Seater. Neck Sizing Die and Seater feature micrometer adjustments. Bushings and Shellholder sold separately. Competition Bushing Neck Die - With this die, the cartridge case is completely supported and aligned with the sizing bushing before the sizing process begins. As the sizing process starts, the cartridge case remains supported in the tightly chambered, sliding sleeve as it moves upward while the resizing bushing self-centers on the case neck. The decapping rod is maintained in precise alignment by using the internal parts of the die as a linear support much like that of a firing pin. Meanwhile, the micrometer adjustment of the bushing position delivers precise control to the desired amount of neck length to be sized. Body Die -designed to full length resize the case body and bump the shoulder position for proper chambering without disturbing the case neck. Competition Bullet Seater - Tighter manufacturing tolerances have been made possible due to the details of the floating seating stem system. The bullet guide to seating stem fit is so precise that the seating stem can actually be demonstrated to "float"

## Attributes

- Name: [REDDING 28 NOSLER COMPETITION BUSHING NECK DIE SET](#)

# Safety Instruction Guide for Redding 28 Nosler Competition Bushing Neck Die Set

## Introduction

Thank you for choosing the Redding 28 Nosler Competition Bushing Neck Die Set. This product is designed for precision reloading and is made with highquality materials to ensure a safe and effective experience. It is important to follow the safety guidelines and instructions outlined in this manual to ensure proper use and to minimize any risks associated with the product.

## General Safety Guidelines

- Always read and understand the instruction manual before using the product.
- Ensure that the die set is used in accordance with the manufacturer's guidelines.
- Keep the die set and all associated tools out of reach of children and vulnerable individuals.
- Regularly inspect the die set for any signs of wear or damage. Do not use if damaged.
- Use appropriate personal protective equipment (PPE) such as safety glasses and gloves when handling reloading materials.
- Be aware of your surroundings and ensure that you are in a safe environment when using the die set.
- Report any unsafe products or accidents to the relevant authorities.

## Specific Safety Precautions for Use

- Ensure that the die set is compatible with the 28 Nosler cartridge before use.
- When adjusting the micrometer settings, do so gently to avoid damaging the components.
- Always ensure that the cartridge case is properly supported and aligned before beginning the sizing process.
- Avoid overtightening the die set, as this may cause damage or misalignment.
- Do not exceed the recommended specifications for resizing and seating bullets.
- Be cautious when handling the decapping rod, as it may be sharp.
- Dispose of any damaged or worn components responsibly.

## Instructions for Installation and Usage

### Installation

1. Select a suitable reloading press that is compatible with the Redding die set.
2. Securely mount the press to a stable work surface.
3. Install the Competition Bushing Neck Sizing Die into the press, ensuring it is tightened properly.
4. Insert the Body Die into the press in the same manner.
5. Attach the Competition Bullet Seater to the press, ensuring it is securely fastened.

### Usage

#### 1. Neck Sizing Die:

- Place the cartridge case into the die.
- Adjust the micrometer to the desired neck length.
- Activate the press to resize the neck. Ensure the case is supported throughout the process.

#### 2. Body Die:

- Insert the cartridge case into the Body Die.

- Activate the press to fulllength resize the case body and bump the shoulder position for proper chambering.

### **3. Competition Bullet Seater:**

- Place a bullet into the cartridge case.
- Adjust the seating depth using the micrometer.
- Activate the press to seat the bullet securely.

## **Disposal Instructions**

- Dispose of any damaged or worn components in accordance with local regulations.
- Do not dispose of the die set in regular household waste. Check for local recycling options for metal components.
- Ensure that all hazardous materials, such as primers and powders, are disposed of in a safe and environmentally responsible manner.

## **Contact Information for Further Support**

For any inquiries regarding safety or usage of the Redding 28 Nosler Competition Bushing Neck Die Set, please refer to the manufacturer's website or contact your local distributor for assistance.

Thank you for following these safety instructions. Your safety and satisfaction are our top priority.
