

FULL LENGTH SIZER DIES - WHIDDEN GUNWORKS 223 REMINGTON FULL LENGTH DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Whiddens' hand-polished sizer dies have a shorter overall length for better shoulder bump back, a smaller base and tighter internal tolerances. All of their sizer dies include a shoulder datum collar to measure shoulder bump and headspace. The sizing dies also include a pin retainer should you chose to use the sizer without the expander. Wide knurling on the die make small adjustments simple while the 6-32 machine screw on the lock ring secures the die once the final adjustment is made.

Attributes

Safety Instruction Guide for FULL LENGTH SIZER DIES WHIDDEN GUNWORKS 223 REMINGTON FULL LENGTH DIE

Introduction

Thank you for choosing the Whidden Gunworks Full Length Sizer Dies for your reloading needs. This guide provides important safety instructions to ensure the safe and effective use of the product in compliance with the EU General Product Safety Regulation (GPSR). Please read this guide carefully before using the product.

General Safety Guidelines

- Always handle reloading equipment with care to prevent accidents.
- Ensure that the work area is clean and free from distractions while using the sizer dies.
- Use personal protective equipment (PPE), such as safety glasses and gloves, when working with reloading materials.
- Keep the product out of reach of children and unauthorized users.
- Regularly inspect the sizer dies for any signs of wear or damage before each use.
- Report any unsafe products and accidents to relevant authorities.

Specific Safety Precautions for Use

- Ensure the die is securely mounted in the reloading press before use.
- Do not exceed recommended load limits for the 223 Remington cartridge.
- Use only compatible components with the sizer die to avoid malfunctions.
- Follow the manufacturer's instructions for adjusting the die to achieve the desired shoulder bump.
- Avoid using the die if it is damaged or if the locking mechanism is not functioning properly.
- Store the sizer die in a dry place when not in use to prevent corrosion.

Instructions for Installation and Usage

1. Installation:

- Begin by cleaning the reloading press to ensure a smooth installation.
- Securely mount the sizer die into the reloading press using the provided lock ring and 632 machine screw.
- Ensure the die is tightened to prevent movement during operation.

2. Usage:

- Prepare the cartridge case by cleaning and inspecting for defects.
- Insert the cartridge case into the sizer die and apply pressure using the reloading press.
- Adjust the shoulder bump by utilizing the shoulder datum collar to measure headspace.
- If using the die without the expander, ensure the pin retainer is properly in place.
- Make small adjustments using the wide knurling on the die for precise control.

3. PostUse:

- After use, clean the die to remove any residue or debris.
- Store the sizer die in its original packaging or a suitable container to protect it from damage.

Disposal Instructions

- Dispose of any damaged or unusable sizer dies in accordance with local regulations.
- Recycle packaging materials where possible.
- Do not dispose of the product in household waste if it contains hazardous materials.

Contact Information for Further Support

For any safety inquiries or further support regarding the Whidden Gunworks Full Length Sizer Dies, please refer to the manufacturer's contact information provided with the product packaging.

Thank you for taking the time to read this safety instruction guide. Your safety is important, and following these guidelines will help ensure a safe and enjoyable reloading experience.
