

BUSHING FULL LENGTH SIZER DIES - WHIDDEN GUNWORKS 22-250 REMINGTON BUSHING FULL LENGTH DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Whiddens' hand-polished Bushing Sizer dies have a shorter overall length for better shoulder bump back, a smaller base and tighter internal tolerances. All of the sizer dies include a shoulder datum collar to measure shoulder bump and headspace. The sizing dies also include a pin retainer should you chose to use the sizer without the expander. Wide knurling on the die make small adjustments simple while the 6-32 machine screw on the lock ring secures the die once the final adjustment is made. The full length bushing die does not include the required bushing. The sizer will accept Redding or L.E. Wilson bushings.

Attributes

- Name: [WHIDDEN GUNWORKS 22-250 REMINGTON BUSHING FULL LENGTH DIE](#)

Safety Instruction Guide for BUSHING FULL LENGTH SIZER DIES WHIDDEN GUNWORKS 22250 REMINGTON

Introduction

Thank you for choosing the Whidden Gunworks Bushing Full Length Sizer Die for your reloading needs. This guide provides important safety instructions and usage information to ensure the safe and effective use of the product. Please read this guide carefully before using the die.

General Safety Guidelines

- Always handle reloading equipment with care and follow all safety protocols.
- Ensure that the workspace is clean, welllit, and free of distractions.
- Keep the die and all reloading components out of reach of children and unauthorized individuals.
- Use personal protective equipment (PPE) such as safety glasses when operating the die.
- Familiarize yourself with the die and its components before use.
- Report any unsafe product conditions or accidents to the appropriate authorities immediately.
- Regularly check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Ensure the die is compatible with your reloading equipment and the 22250 Remington cartridge.
- Inspect the die for any signs of damage or wear before each use. Do not use a damaged die.
- Use the die only for its intended purpose as specified in this guide.
- Make small incremental adjustments when using the die to avoid overadjustment.
- Always secure the die properly in the press to prevent movement during operation.
- If using the die without the expander, ensure the pin retainer is properly installed.
- Do not exceed the recommended load data for the 22250 Remington cartridge.

Instructions for Installation and Usage

1. Installation:

- Secure the die in your reloading press according to the manufacturer's instructions.
- Ensure the die is tightened properly to prevent any movement during operation.
- If using a bushing, select the appropriate size bushing compatible with Redding or L.E. Wilson.

2. Usage:

- Prepare your cartridge cases by cleaning and inspecting them.
- Insert the case into the die and lower the ram of the press.
- Adjust the die to achieve the desired shoulder bump and headspace, using the shoulder datum collar for measurement.
- Make small adjustments to the die as necessary, securing it with the 632 machine screw on the lock ring after final adjustments.
- Remove the resized case from the die and inspect it for proper resizing.

Disposal Instructions

- Dispose of any unused or damaged components of the die in accordance with local regulations.
- Do not dispose of the die or its components in household waste. Check for local hazardous waste disposal

options.

Contact Information for Further Support

For any questions or concerns regarding the use of the Bushing Full Length Sizer Die, please refer to the manufacturer's contact information provided with your product packaging.

Thank you for your attention to these safety instructions. Enjoy your reloading experience with the Whidden Gunworks Bushing Full Length Sizer Die.
