

# BUSHING FULL LENGTH SIZER DIES - WHIDDEN GUNWORKS 6MM BR BUSHING FULL LENGTH DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Whiddens' hand-polished Bushing Sizer dies have a shorter overall length for better shoulder bump back, a smaller base and tighter internal tolerances. All of the sizer dies include a shoulder datum collar to measure shoulder bump and headspace. The sizing dies also include a pin retainer should you chose to use the sizer without the expander. Wide knurling on the die make small adjustments simple while the 6-32 machine screw on the lock ring secures the die once the final adjustment is made. The full length bushing die does not include the required bushing. The sizer will accept Redding or L.E. Wilson bushings.

## Attributes

- Name: [WHIDDEN GUNWORKS 6MM BR BUSHING FULL LENGTH DIE](#)
- Manufacturer: [WHIDDEN GUNWORKS](#)

# BUSHING FULL LENGTH SIZER DIES WHIDDEN GUNWORKS 6MM BR USER MANUAL

## Introduction

Thank you for choosing the Bushing Full Length Sizer Dies from Whidden Gunworks. This product is designed to help you achieve precision in reloading 6mm BR cartridges. To ensure your safety and the effective use of this product, please read this manual carefully.

## General Safety Guidelines

- Always use the product in accordance with the manufacturer's instructions.
- Ensure the workspace is clean and organized to prevent accidents.
- Store the product in a dry place out of reach of children.
- Regularly inspect the product for any signs of wear or damage before use.
- Use appropriate personal protective equipment (PPE), such as safety glasses and gloves, when reloading.
- Report any unsafe conditions or accidents to the relevant authorities.

## Specific Safety Precautions for Use

- Do not exceed the recommended load specifications for the cartridges.
- Ensure that the die is securely fastened before use to prevent accidents.
- Avoid using the die if it shows signs of damage or wear.
- Keep hands and other body parts clear of moving parts during operation.
- Only use Redding or L.E. Wilson bushings with this die, as other brands may not fit properly.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools and materials, including the Bushing Full Length Sizer Die, bushings, and a reloading press.
- Ensure the reloading press is securely mounted and stable.

### 2. Installation:

- Remove the die from its packaging.
- Install the die into the reloading press by screwing it in until it is snug but not overly tight.
- Use the 632 machine screw on the lock ring to secure the die in place.

### 3. Using the Die:

- Insert the appropriate bushing into the die.
- Adjust the die to the desired shoulder bump setting using the shoulder datum collar.
- Place the cartridge case into the press and apply pressure to resize the case.
- Check the shoulder bump and headspace using the provided collar for accuracy.

### 4. PostUse:

- Remove the cartridge case from the press after resizing.
- Store the die in a safe place, away from moisture and dust.

## **Disposal Instructions**

- Dispose of the product in accordance with local regulations.
- Do not dispose of the product in household waste. Consider recycling options if available.

## **Contact Information for Further Support**

For any inquiries or concerns regarding the Bushing Full Length Sizer Dies, please refer to the manufacturer's website or customer service for assistance.

Please ensure that you follow these guidelines and instructions to maintain your safety and the longevity of the product. Thank you for your attention to these important safety measures.
