

BUSHING FULL LENGTH SIZER DIES - WHIDDEN GUNWORKS 7MM SHE BUSHING FULL LENGTH DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Whiddens' hand-polished Bushing Sizer dies have a shorter overall length for better shoulder bump back, a smaller base and tighter internal tolerances. All of the sizer dies include a shoulder datum collar to measure shoulder bump and headspace. The sizing dies also include a pin retainer should you chose to use the sizer without the expander. Wide knurling on the die make small adjustments simple while the 6-32 machine screw on the lock ring secures the die once the final adjustment is made. The full length bushing die does not include the required bushing. The sizer will accept Redding or L.E. Wilson bushings.

Attributes

- Name: [WHIDDEN GUNWORKS 7MM SHE BUSHING FULL LENGTH DIE](#)
- Manufacturer: [WHIDDEN GUNWORKS](#)

Safety Instruction Guide for Bushing Full Length Sizer Dies

Introduction

Thank you for choosing the Bushing Full Length Sizer Dies by Whidden Gunworks. This guide provides essential safety instructions to ensure the safe use and handling of this product. It complies with the EU General Product Safety Regulation (GPSR) to protect consumers and promote safe practices.

General Safety Guidelines

- Always read and understand the product manual before use.
- Ensure that the work area is clean, welllit, and free from distractions.
- Use appropriate personal protective equipment (PPE), such as safety glasses and gloves, when operating the sizer die.
- Keep the product out of reach of children and unauthorized users.
- Regularly inspect the product for wear and damage before each use.
- Follow all local laws and regulations regarding the use of reloading equipment.

Specific Safety Precautions for Use

• Potential Hazards:

- Sharp edges: The die may have sharp edges that can cause cuts.
- Heavy components: The die can be heavy, leading to potential strain or injury if not handled properly.
- Improper use: Using the die outside its intended purpose can lead to malfunction or injury.

• Avoiding Hazards:

- Handle the die with care to prevent cuts and injuries.
- Use proper lifting techniques when moving heavy components.
- Do not modify the die or use it for purposes other than intended.

• Age Restrictions:

- This product is intended for use by individuals aged 18 and older. Ensure that minors are supervised if present in the work area.

Instructions for Installation and Usage

1. Installation:

- Ensure the press is securely mounted to a stable work surface.
- Insert the Bushing Full Length Sizer Die into the press according to the manufacturer's instructions.
- Tighten the die securely using the lock ring and the 632 machine screw.

2. Usage:

- Before sizing, ensure the appropriate bushing is selected (not included with the die).
- Adjust the die to achieve the desired shoulder bump back and headspace.
- Use the shoulder datum collar to measure the shoulder bump accurately.
- Make small adjustments using the wide knurling on the die for precision.

- If using the sizer without the expander, ensure the pin retainer is properly installed.

3. PostUse:

- Clean the die after each use to prevent corrosion and maintain performance.
- Store the die in a safe and dry location, away from children and pets.

Disposal Instructions

- Dispose of the product in accordance with local regulations for nonhazardous materials.
- Do not dispose of the product in household waste. Contact local waste management services for proper disposal methods.

Contact Information for Further Support

For any inquiries or concerns regarding safety or product issues, please refer to the manufacturer's contact details provided with the product packaging or on their official website.

Conclusion

By following these safety instructions, you can ensure a safer and more effective experience with the Bushing Full Length Sizer Dies. Always prioritize safety and remain informed about best practices in reloading and equipment handling. Thank you for your attention to safety!
