

BUSHING FULL LENGTH SIZER DIES - WHIDDEN GUNWORKS 338 EDGE BUSHING FULL LENGTH DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Whiddens' hand-polished Bushing Sizer dies have a shorter overall length for better shoulder bump back, a smaller base and tighter internal tolerances. All of the sizer dies include a shoulder datum collar to measure shoulder bump and headspace. The sizing dies also include a pin retainer should you chose to use the sizer without the expander. Wide knurling on the die make small adjustments simple while the 6-32 machine screw on the lock ring secures the die once the final adjustment is made. The full length bushing die does not include the required bushing. The sizer will accept Redding or L.E. Wilson bushings.

Attributes

- Name: [WHIDDEN GUNWORKS 338 EDGE BUSHING FULL LENGTH DIE](#)
- Manufacturer: [WHIDDEN GUNWORKS](#)
- Product no.: 749016164

Safety Instruction Guide for Bushing Full Length Sizer Dies

Introduction

Thank you for choosing the Bushing Full Length Sizer Dies by Whidden Gunworks. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read the entire guide before using the product.

General Safety Guidelines

- Ensure that you are familiar with the operation of reloading equipment and have received proper training.
- Always wear appropriate safety gear, including safety glasses and gloves, when using reloading equipment.
- Keep the workspace clean and organized to prevent accidents.
- Store the dies in a secure place, out of reach of children and pets.
- Follow the manufacturer's instructions for use and maintenance.
- Report any unsafe products or accidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Potential Hazards:** Improper use of the sizer dies can lead to personal injury or damage to the equipment.
- **Avoiding Hazards:**
 - Do not exceed the recommended pressure limits when resizing cases.
 - Ensure that the die is securely mounted before use to prevent it from loosening during operation.
 - Always check the alignment of the die with the press before starting the resizing process.
 - Use only compatible bushings (Redding or L.E. Wilson) to avoid malfunction.
 - Be cautious when handling sharp tools and components.

Instructions for Installation and Usage

1. Installation:

- Ensure your reloading press is clean and free from debris.
- Securely attach the Bushing Full Length Sizer Die to your reloading press using the provided lock ring and machine screw.
- Adjust the die to the desired position and tighten the lock ring to secure it.

2. Usage:

- Insert the case into the press and ensure it is properly aligned with the die.
- If using the expander, ensure it is properly installed. If not, utilize the pin retainer provided.
- Operate the press smoothly and steadily to resize the case.
- After resizing, measure the shoulder bump and headspace using the shoulder datum collar included with the die.
- Make any necessary adjustments using the wide knurling on the die for precision.

3. PostUsage:

- Clean the die after each use to prevent buildup of debris or residue.
- Store the die in a dry place, away from direct sunlight and moisture.

Disposal Instructions

- Dispose of any packaging materials in accordance with local regulations.
- If the product is no longer usable, dispose of it in a manner that complies with local waste management laws.
- Do not discard the product in regular household waste.

Contact Information for Further Support

For any inquiries or further assistance regarding the Bushing Full Length Sizer Dies, please refer to the contact information provided by your retailer or visit the manufacturer's website.

Thank you for your attention to these safety instructions. Enjoy your reloading experience with the Bushing Full Length Sizer Dies by Whidden Gunworks!
