

FULL LENGTH SIZER AND SEATER DIES SETS - WHIDDEN GUNWORKS 6MM BR FULL LENGTH DIE SET

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Whiddens' hand-polished bushing sizer dies have a shorter overall length for better shoulder bump back, a smaller base and tighter internal tolerances. All of the sizer dies include a shoulder datum collar to measure shoulder bump and headspace. The sizing dies also include a pin retainer should you chose to use the sizer without the expander. Wide knurling on the die make small adjustments simple while the 6-32 machine screw on the lock ring secures the die once the final adjustment is made. The Full Length Bushing die does not include the required bushing. The sizer will accept Redding or L.E. Wilson bushings.

Attributes

- Name: [WHIDDEN GUNWORKS 6MM BR FULL LENGTH DIE SET](#)
- Manufacturer: [WHIDDEN GUNWORKS](#)

Full Length Sizer and Seater Dies Sets Safety Instructions

Introduction

Thank you for choosing the Whidden Gunworks Full Length Sizer and Seater Dies Sets for your reloading needs. This guide provides essential safety information and instructions to ensure safe and effective use of the product. Please read this document carefully before using the dies.

General Safety Guidelines

- Always ensure that you are in a wellventilated area while reloading.
- Keep the dies and all reloading equipment out of reach of children and unauthorized individuals.
- Use protective eyewear when operating reloading equipment.
- Regularly inspect your dies for any signs of wear or damage before use.
- Follow all manufacturer instructions and guidelines for your specific reloading equipment.
- Report any unsafe products or accidents to local authorities.
- Stay informed about product recalls by checking the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Ensure that the die is compatible with the 6 mm BR Norma cartridge before use.
- Do not exceed recommended load limits when using the dies.
- Always wear gloves when handling components to avoid injury from sharp edges.
- Avoid direct contact with the internal parts of the dies to prevent injury.
- Use the shoulder datum collar to accurately measure shoulder bump and headspace.
- Ensure that the pin retainer is securely in place if using the sizer without the expander.
- Make small adjustments with the wide knurling on the die to prevent overtightening.
- Keep all tools and components organized to prevent accidents.

Instructions for Installation and Usage

1. Installation:

- Secure the die into your reloading press according to the manufacturer's instructions.
- Ensure the die is tightened properly to prevent movement during operation.
- If using a bushing die, insert the appropriate Redding or L.E. Wilson bushing into the die.

2. Usage:

- Set up your reloading press according to the manufacturer's guidelines.
- Adjust the die using the 632 machine screw on the lock ring after making the final adjustments.
- Use the shoulder datum collar to measure the shoulder bump before proceeding with reloading.
- Carefully follow the reloading data for the 6 mm BR Norma cartridge to ensure safe loading practices.
- After reloading, inspect each cartridge for proper sizing and overall quality.

Disposal Instructions

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not throw away dies or tools in regular waste; check with local recycling centers for proper disposal methods.
- Ensure that all hazardous materials are disposed of according to safety guidelines.

Contact Information for Further Support

For further assistance or inquiries regarding the safety and use of the Whidden Gunworks Full Length Sizer and Seater Dies Sets, please refer to the manufacturer's website or contact your local distributor.

By following these safety instructions, you can help ensure a safe and efficient reloading experience. Always prioritize safety and stay informed about best practices. Thank you for your attention to these important guidelines.
