

# BUSHING FULL LENGTH SIZER AND SEATER DIE SETS - WHIDDEN GUNWORKS 6MM BR BUSHING FULL LENGTH DIE SET

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Whiddens' hand polished Bushing Full Length Sizer and Seater Sets come in most standard calibers . The Full Length Sizer Die has a shorter overall length for better shoulder bump-back, a smaller base and tighter internal tolerances. The Seater Die comes with a micrometer top for precise adjustments. These dies are designed with a floating sleeve system which helps to improve concentricity- a must for repeatable precision. No bushing is included with the set. The sizer will accept Redding or L.E. Wilson bushings.

# Safety Instruction Guide for Bushing Full Length Sizer and Seater Die Sets

## Introduction

Thank you for choosing the Whidden Gunworks Bushing Full Length Sizer and Seater Die Set for your reloading needs. This guide provides essential safety information and instructions to help you use this product safely and effectively. Please read this guide carefully before use to ensure a safe and enjoyable experience.

## General Safety Guidelines

- Always follow the manufacturer's instructions and guidelines.
- Ensure that the work area is clean, welllit, and free from distractions.
- Use proper personal protective equipment (PPE), such as safety glasses and gloves, during operation.
- Keep the product out of reach of children and unauthorized users.
- Regularly inspect the die set for signs of wear or damage before each use.
- Report any unsafe conditions or accidents to the appropriate authorities.
- Stay informed about product recalls and safety updates via the EU Safety Gate platform.

## Specific Safety Precautions for Use

- Ensure that the die set is compatible with your reloading equipment and the specific caliber you are using (6 mm BR Norma).
- Do not exceed the recommended load specifications for your ammunition.
- Always use the die set in a wellventilated area to avoid inhaling any dust or particles.
- Avoid using the die set for purposes other than intended.
- Handle all components with care to prevent injury or damage.
- Never attempt to modify the die set; any alterations can compromise safety and performance.

## Instructions for Installation and Usage

### 1. Installation of the Die Set:

- Clean the reloading press and ensure it is free from debris.
- Install the Full Length Sizer Die into the reloading press according to the manufacturer's instructions.
- Secure the die firmly to prevent movement during operation.
- Install the Seater Die in the same manner, ensuring it is adjusted to the desired seating depth.

### 2. Using the Full Length Sizer Die:

- Insert the cartridge case into the die and operate the reloading press to resize the case.
- Check the case dimensions against a caliper or gauge to ensure proper sizing.
- Repeat the process as necessary for each case being resized.

### 3. Using the Seater Die:

- Place a bullet on top of the resized case and insert it into the Seater Die.
- Adjust the micrometer top for precise bullet seating depth.
- Operate the reloading press to seat the bullet securely in the case.
- Inspect the finished cartridge for proper seating and overall quality.

## **Disposal Instructions**

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not dispose of the die set in regular household waste. Instead, contact local waste management authorities for guidance on proper disposal methods.
- Ensure that all packaging materials are recycled or disposed of responsibly.

## **Contact Information for Further Support**

For any inquiries or support regarding the Bushing Full Length Sizer and Seater Die Set, please refer to the manufacturer's contact information, which can be found on their website or product packaging.

By following these safety instructions, you can ensure a safe and effective reloading experience with your Whidden Gunworks Bushing Full Length Sizer and Seater Die Set. Thank you for your attention to safety, and happy reloading!
