

# **BUSHING FULL LENGTH SIZER AND SEATER DIE SETS - WHIDDEN GUNWORKS 6X47MM LAPUA BUSHING FULL LENGTH DIE SET**

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Whiddens' hand polished Bushing Full Length Sizer and Seater Sets come in most standard calibers . The Full Length Sizer Die has a shorter overall length for better shoulder bump-back, a smaller base and tighter internal tolerances. The Seater Die comes with a micrometer top for precise adjustments. These dies are designed with a floating sleeve system which helps to improve concentricity- a must for repeatable precision. No bushing is included with the set. The sizer will accept Redding or L.E. Wilson bushings.

## **Attributes**

- Name: [WHIDDEN GUNWORKS 6X47MM LAPUA BUSHING FULL LENGTH DIE SET](#)
- Manufacturer: [WHIDDEN GUNWORKS](#)

# Safety Instructions for Bushing Full Length Sizer and Seater Die Sets

## Introduction

Thank you for choosing the Bushing Full Length Sizer and Seater Die Set from Whidden Gunworks for your 6x47mm Lapua reloading needs. This guide provides essential safety instructions and guidelines to ensure safe and effective use of the product. Please read this document carefully before using the dies.

## General Safety Guidelines

- Ensure that the die set is used only for its intended purpose.
- Always wear appropriate safety gear, including safety glasses, when reloading ammunition.
- Keep the work area clean and organized to prevent accidents.
- Store the die set in a safe place, out of reach of children and pets.
- Follow all local regulations regarding the handling and storage of reloading equipment and materials.
- Regularly inspect the dies for any signs of wear or damage before use.

## Specific Safety Precautions for Use

- Handle all reloading components with care to avoid spills or accidents.
- Do not exceed recommended load data when reloading ammunition.
- Ensure that the press and dies are securely mounted before use.
- Use only compatible bushings with the sizer die. The sizer accepts Redding or L.E. Wilson bushings only.
- Make sure to adjust the micrometer top on the seater die slowly and carefully to avoid sudden changes in seating depth.
- Avoid distractions while reloading to maintain focus and precision.

## Instructions for Installation and Usage

### 1. Installation of the Die Set:

- Clean the press and ensure it is free from debris.
- Install the Full Length Sizer Die into the press according to the manufacturer's instructions.
- Tighten the die securely to avoid movement during operation.
- Install the Seater Die in the same manner, ensuring it is properly aligned.

### 2. Using the Full Length Sizer Die:

- Insert a case into the shell holder.
- Raise the ram to full extension and adjust the die to achieve the desired shoulder bumpback.
- Lower the ram and remove the resized case.

### 3. Using the Seater Die:

- Place a bullet on the case mouth.
- Insert the case into the shell holder.
- Raise the ram to seat the bullet.
- Adjust the micrometer top for precise bullet seating depth as needed.

### 4. PostUse Care:

- After use, clean the dies to prevent any buildup of residue.

- Store the die set in a protective case or original packaging to prevent damage.

## **Disposal Instructions**

- Dispose of any defective or damaged dies in accordance with local regulations.
- Do not attempt to repair or modify the die set; dispose of it if it is no longer functional.
- Ensure that all components are disposed of safely to prevent environmental contamination.

## **Contact Information for Further Support**

For any questions or concerns regarding the use or safety of the Bushing Full Length Sizer and Seater Die Set, please refer to the manufacturer's website or contact their customer service for assistance.

By following these safety instructions, you can ensure a safe and successful reloading experience with your Bushing Full Length Sizer and Seater Die Set. Thank you for your attention to safety.
