

BUSHING FULL LENGTH SIZER AND SEATER DIE SETS - WHIDDEN GUNWORKS 243 WINCHESTER BUSHING FULL LENGTH DIE SET

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Whiddens' hand polished Bushing Full Length Sizer and Seater Sets come in most standard calibers . The Full Length Sizer Die has a shorter overall length for better shoulder bump-back, a smaller base and tighter internal tolerances. The Seater Die comes with a micrometer top for precise adjustments. These dies are designed with a floating sleeve system which helps to improve concentricity- a must for repeatable precision. No bushing is included with the set. The sizer will accept Redding or L.E. Wilson bushings.

Safety Instruction Guide for Bushing Full Length Sizer and Seater Die Sets

Introduction

Thank you for choosing the Whidden Gunworks Bushing Full Length Sizer and Seater Die Sets for your reloading needs. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of this product. Please read this document carefully before using the dies.

General Safety Guidelines

- Always handle reloading equipment with care and respect.
- Ensure that your workspace is clean, organized, and free from distractions.
- Use protective eyewear when operating reloading equipment to prevent injury from debris.
- Keep all reloading tools and components out of reach of children and unauthorized users.
- Familiarize yourself with the specific features and functions of the Bushing Full Length Sizer and Seater Die Sets before use.

Specific Safety Precautions for Use

- **Potential Hazards:**
 - Improper use of the dies may lead to injury or damage to the equipment.
 - Failure to follow safety guidelines can result in accidents during the reloading process.
- **Avoiding Hazards:**
 - Always ensure the dies are securely mounted in the press before use.
 - Do not exceed the recommended load limits for your cartridges.
 - Inspect the dies for any signs of wear or damage before each use.
 - Use only compatible bushings (Redding or L.E. Wilson) with the sizer die.
 - Ensure that all components are clean and free from obstructions before starting the reloading process.

Instructions for Installation and Usage

1. Installation:

- Securely mount the Full Length Sizer Die into your reloading press, ensuring it is properly aligned.
- Attach the Seater Die in the same manner, verifying alignment and secure fit.
- Check that the micrometer top on the Seater Die is functioning correctly for precise adjustments.

2. Usage:

- Follow the manufacturer's guidelines for the specific caliber (243 Winchester) to ensure proper loading.
- Adjust the micrometer on the Seater Die for precise bullet seating depth as required.
- Perform a test run with dummy rounds to confirm proper functioning before loading live ammunition.
- Always wear appropriate safety gear, including eye protection, while reloading.

Disposal Instructions

- Dispose of any damaged or wornout dies in accordance with local regulations.
- Recycle packaging materials where possible.
- Do not dispose of any materials in a way that may harm the environment.

Contact Information for Further Support

For any inquiries regarding safety or product issues, please refer to the manufacturer's website or contact their customer support directly. Ensure you have your product details ready for a more efficient response.

Conclusion

By following these safety instructions and guidelines, you can ensure a safe and effective reloading experience with your Whidden Gunworks Bushing Full Length Sizer and Seater Die Sets. Always prioritize safety and stay informed about best practices in reloading. Thank you for your attention to these important safety measures.
