

# **BUSHING FULL LENGTH SIZER AND SEATER DIE SETS - WHIDDEN GUNWORKS 7MM SHE BUSHING FULL LENGTH DIE SET**

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Whiddens' hand polished Bushing Full Length Sizer and Seater Sets come in most standard calibers . The Full Length Sizer Die has a shorter overall length for better shoulder bump-back, a smaller base and tighter internal tolerances. The Seater Die comes with a micrometer top for precise adjustments. These dies are designed with a floating sleeve system which helps to improve concentricity- a must for repeatable precision. No bushing is included with the set. The sizer will accept Redding or L.E. Wilson bushings.

## **Attributes**

- Name: [WHIDDEN GUNWORKS 7MM SHE BUSHING FULL LENGTH DIE SET](#)

# Safety Instruction Guide for Bushing Full Length Sizer and Seater Die Sets

## Introduction

Thank you for choosing the Bushing Full Length Sizer and Seater Die Sets by Whidden Gunworks. This guide provides essential safety instructions to ensure the safe and effective use of your die sets. Please read this guide carefully before using the product.

## General Safety Guidelines

- Always ensure that the workspace is clean and organized before starting any reloading process.
- Keep all tools and components out of the reach of children and unauthorized persons.
- Use protective eyewear and gloves when operating the dies to prevent injury.
- Inspect the dies for any signs of damage or wear before use.
- Do not exceed the recommended load specifications for your cartridge.
- Follow all local, state, and national laws regarding the reloading of ammunition.

## Specific Safety Precautions for Use

- **Potential Hazards:**

- Improper use of the dies can lead to misfires or ammunition that does not meet safety standards.
- The use of incorrect bushings may result in poor accuracy or damage to the die.

- **Instructions for Avoiding Hazards:**

- Always use the appropriate bushing for your die set.
- Ensure that the die is securely mounted in the reloading press before use.
- Avoid using excessive force when resizing or seating bullets; this may damage the die.
- Regularly clean and maintain the dies to ensure optimal performance and safety.

## Instructions for Installation and Usage

- **Installation:**

1. Ensure that your reloading press is compatible with the Bushing Full Length Sizer and Seater Die Sets.
2. Securely mount the Full Length Sizer Die into the reloading press.
3. Insert the appropriate bushing into the die (sold separately) and tighten it according to the manufacturer's instructions.
4. Repeat the process for the Seater Die, ensuring it is set to the desired bullet seating depth.

- **Usage:**

1. Begin by resizing the brass cases using the Full Length Sizer Die. Follow the press instructions to apply consistent pressure.
2. After resizing, check the shoulder bumpback to ensure it meets your specifications.
3. Proceed to seat the bullets using the Seater Die. Adjust the micrometer top for precise bullet seating depth.
4. Inspect each round for consistency and safety before use.

## Disposal Instructions

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not throw away the dies in regular trash. Contact a local hazardous waste disposal facility for safe

disposal options.

## Contact Information for Further Support

For any safety inquiries, please refer to the contact information provided by your retailer or manufacturer. Ensure that you have the product details ready for a more efficient response.

By following these safety guidelines and instructions, you can ensure a safe and successful reloading experience with your Bushing Full Length Sizer and Seater Die Sets. Always prioritize safety and stay informed about best practices in ammunition reloading.
