

BUSHING FULL LENGTH SIZER AND SEATER DIE SETS - WHIDDEN GUNWORKS 7MM REMINGTON MAGNUM BUSHING FULL LENGTH DIE SET

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Whiddens' hand polished Bushing Full Length Sizer and Seater Sets come in most standard calibers . The Full Length Sizer Die has a shorter overall length for better shoulder bump-back, a smaller base and tighter internal tolerances. The Seater Die comes with a micrometer top for precise adjustments. These dies are designed with a floating sleeve system which helps to improve concentricity- a must for repeatable precision. No bushing is included with the set. The sizer will accept Redding or L.E. Wilson bushings.

Consumer Safety Instruction Guide for Bushing Full Length Sizer and Seater Die Sets

Introduction

Thank you for choosing the Whidden Gunworks Bushing Full Length Sizer and Seater Die Sets for your reloading needs. This guide is designed to provide essential safety instructions and best practices to ensure safe and effective use of this product. Please read this guide carefully before using the die sets.

General Safety Guidelines

- Ensure the product is used only for its intended purpose as specified in this manual.
- Always work in a wellventilated area to avoid inhaling any dust or particles generated during reloading.
- Keep the die sets and all reloading components out of reach of children and unauthorized users.
- Regularly inspect the die sets for any signs of wear or damage before use.
- Use personal protective equipment (PPE) such as safety glasses and gloves when handling reloading materials.

Specific Safety Precautions for Use

- Do not exceed the recommended load data for the caliber being used.
- Always doublecheck measurements and settings before commencing reloading.
- Use only compatible bushings with the sizer die; Redding or L.E. Wilson bushings are recommended.
- Avoid distractions while reloading, and do not rush the process.
- If you experience any malfunctions or issues with the die sets, cease use immediately and consult a professional.

Instructions for Installation and Usage

1. Installation of the Dies:

- Ensure your reloading press is securely mounted to a stable work surface.
- Insert the Full Length Sizer Die into the reloading press and tighten securely.
- Adjust the die to achieve the desired shoulder bumpback based on your specific reloading requirements.
- Install the Seater Die in a similar manner, ensuring it is also tightened securely.

2. Using the Dies:

- For sizing, place the brass case into the shell holder and raise the ram to size the case.
- For seating, insert the bullet into the case mouth and raise the ram to seat the bullet to the desired depth.
- Use the micrometer top on the Seater Die for precise adjustments to bullet seating depth.

3. PostUse Care:

- After use, clean the die sets to remove any debris or residue.
- Store the die sets in a cool, dry place to prevent rust or damage.

Disposal Instructions

- Dispose of any used or damaged reloading components according to local regulations.
- Do not throw away the die sets in regular household waste. Instead, check with local authorities for

proper disposal methods for metal and plastic components.

Contact Information for Further Support

For any safety inquiries or concerns regarding the Whidden Gunworks Bushing Full Length Sizer and Seater Die Sets, please contact your authorized dealer or visit the manufacturer's website for more information.

By following these guidelines, you can help ensure a safe and enjoyable reloading experience. Always stay informed about safety practices and updates related to your reloading equipment. Thank you for prioritizing safety in your reloading activities.
