

# **MICROMETER SEATER DIES - WHIDDEN GUNWORKS 6MM PPC BULLET SEATER DIE**

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

For precise, consistent OAL handloads, the internals of the Whidden Seater Die are designed to keep your rounds .... Round. Inside the die is a floating sleeve system helps to improve concentricity - a must for repeatable precision. The Micrometer Adjustable Seating Die has flutes for precise hand adjustment at the loading bench. The depth increments are easily read and will stay that way for years of use.

# Safety Instruction Guide for the Whidden Gunworks 6mm PPC Bullet Seater Die

## Introduction

Thank you for choosing the Whidden Gunworks 6mm PPC Bullet Seater Die. This product is designed for precision handloading to ensure consistent overall length (OAL) in your ammunition. To ensure safe and effective use of this product, please read and follow these safety instructions carefully.

## General Safety Guidelines

- Always use the die in accordance with the manufacturer's instructions.
- Ensure that your workspace is clean and free of obstructions.
- Keep the die out of reach of children and pets.
- Use appropriate personal protective equipment (PPE) such as safety glasses and gloves when handling reloading equipment and components.
- Inspect the die for any damage before use. Do not use if damaged.
- Ensure that you are familiar with the reloading process and follow best practices for safety.

## Specific Safety Precautions for Use

- Do not exceed the recommended load specifications for the 6mm PPC cartridge.
- Always doublecheck measurements before making adjustments to the seating depth.
- Ensure that the floating sleeve system is functioning correctly before use to maintain concentricity.
- Avoid distractions while loading ammunition to maintain focus and accuracy.
- Store the die in a secure location when not in use to prevent accidental injury or damage.

## Instructions for Installation and Usage

### 1. Installation:

- Remove the die from its packaging and inspect it for any visible damage.
- Securely attach the die to your reloading press according to the manufacturer's instructions.
- Ensure that the die is tightened properly to prevent movement during operation.

### 2. Usage:

- Set the desired seating depth using the micrometer adjustment feature. The flutes on the die allow for precise hand adjustments.
- Insert a case into the die and ensure it is properly positioned.
- Slowly lower the seating stem to seat the bullet to the desired depth. Check the OAL with a caliper after each adjustment.
- Repeat the process for additional rounds, maintaining focus on measurements and adjustments.

## Disposal Instructions

- Dispose of any packaging materials in accordance with local regulations.
- If the die becomes damaged or is no longer usable, contact your local waste management facility for proper disposal methods.
- Do not dispose of the die in regular household waste if it contains any hazardous materials.

## Contact Information for Further Support

For any inquiries regarding safety or product usage, please refer to the contact information provided with your product packaging or visit the manufacturer's website for additional resources.

## Conclusion

By following these safety instructions, you can ensure a safe and effective experience with your Whidden Gunworks 6mm PPC Bullet Seater Die. Always prioritize safety and adhere to the guidelines provided to achieve the best results in your handloading process.
