

# MICROMETER SEATER DIES - WHIDDEN GUNWORKS 6X47MM LAPUA BULLET SEATER DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

For precise, consistent OAL handloads, the internals of the Whidden Seater Die are designed to keep your rounds .... Round. Inside the die is a floating sleeve system helps to improve concentricity – a must for repeatable precision. The Micrometer Adjustable Seating Die has flutes for precise hand adjustment at the loading bench. The depth increments are easily read and will stay that way for years of use.

# **Safety Instruction Guide for MICROMETER SEATER DIES WHIDDEN GUNWORKS 6X47MM LAPUA BULLET SEATER DIE**

## **Introduction**

Thank you for choosing the Whidden Gunworks Micrometer Seater Die for your reloading needs. This guide is designed to provide you with essential safety instructions to ensure the safe and effective use of this product. Please read this manual carefully before using the die, and keep it for future reference.

## **General Safety Guidelines**

- Ensure that you are familiar with the reloading process and best practices before using this die.
- Always wear appropriate safety gear, including safety glasses and gloves, when handling reloading equipment and components.
- Store all reloading materials, including this die, in a secure location away from children and unauthorized users.
- Regularly inspect your die for signs of wear or damage. Do not use a damaged die.
- Follow all local regulations and guidelines regarding the use and storage of reloading equipment.

## **Specific Safety Precautions for Use**

- Handle the die with care to prevent injury. The die has precision components that may be sensitive to impact.
- Ensure that the die is properly secured in your reloading press before use to prevent accidents.
- Use only the specified cartridge (6 x 47 Lapua) with this die. Using the wrong cartridge can lead to dangerous malfunctions.
- Be cautious when adjusting the seating depth. Make small adjustments and test frequently to ensure accuracy.
- Avoid wearing loose clothing or accessories that could become caught in the reloading equipment.
- Keep your workspace clean and organized to minimize the risk of accidents.

## **Instructions for Installation and Usage**

### **1. Installation:**

- Ensure that your reloading press is clean and free of debris.
- Carefully insert the Whidden Micrometer Seater Die into the reloading press.
- Secure the die according to the manufacturer's instructions, ensuring it is tightly fastened.

### **2. Adjusting the Die:**

- Use the micrometer adjustment feature to set the desired seating depth. Turn the micrometer to make precise adjustments.
- Refer to the markings on the die for easy reading of depth increments.

### **3. Seating Bullets:**

- Place a cartridge case into the press and ensure it is properly aligned.
- Insert the bullet into the case mouth.
- Activate the press to seat the bullet to the desired depth. Monitor the process closely to ensure consistent results.

#### **4. Testing:**

- After seating, measure the overall length (OAL) of the loaded cartridge to confirm it meets your specifications.
- Make any necessary adjustments to the die and repeat the process until you achieve the desired results.

## **Disposal Instructions**

- Dispose of any used or damaged components in accordance with local regulations.
- Do not throw the die or any reloading components in regular household waste. Check for recycling options or hazardous waste disposal facilities in your area.

## **Contact Information for Further Support**

For any safety inquiries or support regarding the Whidden Micrometer Seater Die, please consult the manufacturer's website or customer service for assistance. Additionally, consider reporting any unsafe products or incidents to the relevant authorities.

## **Conclusion**

By following these safety guidelines and instructions, you can ensure a safe and efficient reloading experience with the Whidden Gunworks Micrometer Seater Die. Always prioritize safety and stay informed about best practices in reloading. Thank you for your attention to these important safety measures.
