

MICROMETER SEATER DIES - WHIDDEN GUNWORKS 6.5MM REMINGTON SAUM BULLET SEATER DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

For precise, consistent OAL handloads, the internals of the Whidden Seater Die are designed to keep your rounds Round. Inside the die is a floating sleeve system helps to improve concentricity – a must for repeatable precision. The Micrometer Adjustable Seating Die has flutes for precise hand adjustment at the loading bench. The depth increments are easily read and will stay that way for years of use.

MICROMETER SEATER DIES WHIDDEN GUNWORKS

6.5MM REMINGTON SAUM BULLET SEATER DIE

Safety Instruction Guide

Introduction

Thank you for choosing the Whidden Gunworks 6.5mm Remington SAUM Bullet Seater Die. This product is designed for precise and consistent overall length (OAL) handloads. It features a floating sleeve system for improved concentricity and micrometer adjustments for ease of use. To ensure safe and effective operation, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Ensure that the die is used only by individuals who are knowledgeable about reloading and firearm safety.
- Always wear appropriate eye protection when handling reloading equipment.
- Keep the work area clean and organized to prevent accidents.
- Store the die in a secure place, out of reach of children and unauthorized users.
- Regularly inspect the die for wear or damage before use.
- Follow all local laws and regulations regarding the use of reloading equipment.

Specific Safety Precautions for Use

- Use only the recommended cartridges with this die to avoid malfunctions.
- Ensure that the die is properly installed in the reloading press before use.
- Keep hands and other body parts clear of moving parts during operation.
- Do not exceed the maximum load recommendations provided by the bullet manufacturer.
- Avoid distractions while operating the reloading press.
- If you notice any unusual sounds or resistance while using the die, stop immediately and inspect for issues.

Instructions for Installation and Usage

1. Installation:

- Ensure the reloading press is securely mounted to a stable surface.
- Remove any existing dies from the press.
- Insert the Whidden Seater Die into the press and tighten it securely.
- Adjust the die to the desired seating depth using the micrometer adjustment feature.

2. Usage:

- Prepare your brass cases and bullets according to standard reloading practices.
- Place a prepared case in the shell holder of the reloading press.
- Insert a bullet into the case mouth.
- Pull the handle of the press to seat the bullet to the desired depth.
- Check the overall length of the loaded round with a caliper to ensure it meets specifications.
- Repeat the process for additional rounds, maintaining careful attention to detail.

Disposal Instructions

- Dispose of any used components, such as spent primers or excess powder, in accordance with local regulations.
- Do not dispose of the die in regular household waste. Instead, check with local authorities for proper disposal methods for metal and reloading equipment.

Contact Information for Further Support

For any inquiries regarding safety, usage, or technical support, please refer to the contact information provided with your product packaging or visit the manufacturer's website.

Note: Always stay informed about product recalls or safety alerts by checking the EU's Safety Gate platform. Report any unsafe products or incidents to the appropriate authorities.

By following these guidelines, you can ensure a safe and effective reloading experience with your Whidden Gunworks Micrometer Seater Die. Enjoy your reloading!
