

# MICROMETER SEATER DIES - WHIDDEN GUNWORKS 7MM REMINGTON MAGNUM BULLET SEATER DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

For precise, consistent OAL handloads, the internals of the Whidden Seater Die are designed to keep your rounds .... Round. Inside the die is a floating sleeve system helps to improve concentricity – a must for repeatable precision. The Micrometer Adjustable Seating Die has flutes for precise hand adjustment at the loading bench. The depth increments are easily read and will stay that way for years of use.

## Attributes

# Safety Instruction Guide for MICROMETER SEATER DIES WHIDDEN GUNWORKS 7MM REMINGTON MAGNUM BULLET SEATER DIE

## Introduction

Thank you for choosing the Whidden Gunworks Micrometer Seater Die for your reloading needs. This guide provides essential safety instructions and guidelines to ensure safe and effective use of this product. Please read all instructions carefully before use.

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Keep the die out of reach of children and vulnerable individuals.
- Always wear appropriate safety gear, including safety glasses, when reloading ammunition.
- Regularly inspect the die for any signs of wear or damage before use.
- Store the die in a dry, secure location when not in use.
- Follow all local laws and regulations regarding ammunition reloading.

## Specific Safety Precautions for Use

- Always read and understand the reloading manual that comes with your reloading equipment.
- Use only the recommended components (brass, powder, bullets) for the 7mm Remington Magnum.
- Ensure that the workspace is clean and free from distractions while reloading.
- Do not exceed recommended load data; consult reliable sources for load specifications.
- Be cautious when handling powder and primers; they can be hazardous if mishandled.
- Use the floating sleeve system carefully to maintain concentricity and avoid misalignment.
- Do not attempt to modify the die or its components in any way.

## Instructions for Installation and Usage

### 1. Installation:

- Securely mount the die in your reloading press according to the manufacturer's instructions.
- Ensure that the die is properly aligned and tightened to prevent movement during use.

### 2. Usage:

- Adjust the micrometer setting to your desired overall length (OAL) based on your load specifications.
- Insert the brass case into the shell holder and ensure it is seated properly.
- Place a bullet on the case mouth and lower the ram to engage the die.
- Raise the ram to seat the bullet to the desired depth, checking the OAL with calipers for accuracy.
- Repeat the process for additional rounds, making adjustments as necessary.

## Disposal Instructions

- Dispose of any unused or excess components according to local regulations.
- Do not dispose of hazardous materials (e.g., primers, powder) in regular trash; consult local waste management for proper disposal methods.
- Ensure that the die is cleaned and free from debris before storing it to prolong its lifespan.

## **Contact Information for Further Support**

For any inquiries regarding safety or product use, please refer to the manufacturer's contact information provided in the product packaging or visit the official website.

## **Conclusion**

By following these safety instructions and guidelines, you can ensure a safe and efficient reloading experience with the Whidden Gunworks Micrometer Seater Die. Always prioritize safety and adhere to best practices while handling reloading equipment. Thank you for your attention to these important safety measures.
