

MICROMETER SEATER DIES - WHIDDEN GUNWORKS 338 LAPUA MAGNUM BULLET SEATER DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

For precise, consistent OAL handloads, the internals of the Whidden Seater Die are designed to keep your rounds Round. Inside the die is a floating sleeve system helps to improve concentricity – a must for repeatable precision. The Micrometer Adjustable Seating Die has flutes for precise hand adjustment at the loading bench. The depth increments are easily read and will stay that way for years of use.

Safety Instruction Guide for MICROMETER SEATER DIES WHIDDEN GUNWORKS 338 LAPUA MAGNUM BULLET SEATER DIE

Introduction

Thank you for choosing the Whidden Gunworks 338 Lapua Magnum Bullet Seater Die. This product is designed for precision handloading, ensuring consistent overall length (OAL) for your ammunition. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Ensure you are familiar with the basic principles of reloading ammunition before using this die.
- Always wear appropriate safety gear, including safety glasses, when handling ammunition and reloading equipment.
- Keep the die and all reloading components out of reach of children and unauthorized users.
- Regularly inspect the die for wear or damage. Do not use if any part is damaged.
- Follow all local laws and regulations regarding ammunition reloading and storage.
- Report any unsafe products or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- Use only with the appropriate cartridge: 338 Lapua Magnum.
- Ensure the die is securely mounted to your reloading press before use.
- Avoid using excessive force when adjusting the die settings to prevent damage.
- Maintain a clean and organized workspace to minimize the risk of accidents.
- Do not leave the die unattended while in use.
- Be cautious of hot surfaces if the die has been in use for an extended period.

Instructions for Installation and Usage

1. Installation:

- Ensure your reloading press is turned off and unplugged.
- Securely attach the Whidden Seater Die to the press using the provided mounting hardware.
- Make sure the die is properly aligned with the press's ram.

2. Usage:

- Adjust the micrometer settings to your desired OAL using the flutes for precise hand adjustment.
- Insert the cartridge case into the die and ensure it is seated properly.
- Gently pull the press handle to seat the bullet into the cartridge case.
- Check the OAL of the completed round using a caliper to ensure it meets your specifications.
- Repeat the process for additional rounds, adjusting the die settings as necessary.

Disposal Instructions

- Dispose of any damaged or worn components in accordance with local waste disposal regulations.
- Do not throw the die or any parts into regular trash if they are still functional; consider donating or recycling if appropriate.
- Ensure that all materials are disposed of safely to prevent environmental harm.

Contact Information for Further Support
