Safety Instruction Guide for the Redding Piloted Deburring Tool

Introduction

Thank you for choosing the Redding Piloted Deburring Tool. This tool is designed to remove burrs and bevels from case mouths, facilitating easier bullet seating. To ensure safe and effective use, please read and follow these safety instructions carefully.

General Safety Guidelines

- Always read the product manual before use.
- Ensure that the tool is used only for its intended purpose.
- Keep the tool out of reach of children and vulnerable individuals.
- Regularly inspect the tool for any signs of wear or damage before use.
- Use safety glasses to protect your eyes from metal shavings and debris.
- Do not use the tool if you are tired or under the influence of substances that may impair your judgment.

Specific Safety Precautions for Use

- Ensure the pilot rod is adjusted correctly for the cartridge length you are using to maintain chamber concentricity.
- Use the tool in a wellventilated area to minimize exposure to dust and debris.
- Always secure the case you are deburring in a stable position to prevent slipping.
- Avoid excessive force when using the tool to prevent injury or damage to the tool.
- In case of any accidents or injuries, seek medical attention immediately.

Instructions for Installation and Usage

1. Installation:

- Remove the Redding Piloted Deburring Tool from its packaging.
- Inspect the tool for any visible damage or defects.
- Adjust the pilot rod to the appropriate length for the cartridge you are using.
- Ensure that the flutes are clean and free from debris before each use.

2. Usage:

- Hold the tool firmly and position the case mouth against the flutes.
- Apply gentle pressure while rotating the tool to remove burrs and bevels.
- Check the case mouth frequently to ensure the desired finish is achieved.
- After use, clean the tool with a soft cloth to remove any metal shavings.

Disposal Instructions

- Dispose of the tool in accordance with local regulations.
- Do not dispose of the tool in general waste if it is damaged or contains hazardous materials.
- Consider recycling the tool if possible to minimize environmental impact.

Contact Information for Further Support

For any safety inquiries or concerns regarding the Redding Piloted Deburring Tool, please reach out to your local

retailer or visit the manufacturer's website for more information.

Conclusion

By following these safety instructions, you can ensure a safe and effective experience with the Redding Piloted Deburring Tool. Always prioritize safety and adhere to the guidelines provided for optimal use. Thank you for your attention to these important safety measures.
