

TYPE S BUSHING FULL DIES - REDDING 30 NOSLER BUSHING FULL LENGTH TYPE S DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Full Length resizing while maintaining exact control of the case neck is often desirable in one operation. The Redding Type S Bushing Full Length Sizing Dies accomplish this task with the precision you would expect from Redding. Uses the same interchangeable bushings as those used in Redding bushing style neck sizing dies. The adjustable decapping rod allows you to adjust the bushing position, sizing only part of the neck length when desired. Concentricity is enhanced by the ability of the bushing to self-center on the neck of the cartridge case. All Type S dies are supplied with both the standard size button and a decapping pin retainer. By removing the bushing and all internal parts, the Type S Bushing Full Die may also be used as a body die.

Safety Instruction Guide for TYPE S BUSHING FULL DIES REDDING 30 NOSLER BUSHING FULL LENGTH TYPE S DIE

Introduction

Thank you for choosing the Redding Type S Bushing Full Length Die for your reloading needs. This product is designed to allow fulllength resizing of cartridge cases while maintaining precise control over the case neck. To ensure safe and effective use of this product, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Always handle reloading equipment and components with care to prevent accidents.
- Ensure that your workspace is clean and organized to minimize hazards.
- Use personal protective equipment (PPE) such as safety glasses and gloves while operating reloading equipment.
- Keep the product out of reach of children and unauthorized users.
- Store the product in a secure location when not in use.
- Regularly inspect the product for wear or damage before use.

Specific Safety Precautions for Use

- Before using the die, ensure that it is compatible with the cartridge you are reloading (30 Nosler).
- Always follow the manufacturer's instructions for setup and operation.
- Do not exceed recommended sizing pressures to avoid damaging the die or cartridge.
- Be cautious of sharp edges on the die and associated components.
- Ensure that the bushing is properly installed and secured before use.
- Avoid placing fingers near moving parts during operation.
- If you experience any difficulty during operation, stop immediately and consult the manual or contact support for assistance.

Instructions for Installation and Usage

1. Installation:

- Remove the die from its packaging and inspect it for any damage.
- Clean the die if necessary to remove any manufacturing residue.
- Install the die into your reloading press according to the manufacturer's instructions.
- Ensure that the die is securely tightened to prevent movement during operation.

2. Usage:

- Adjust the decapping rod to the desired position based on the length of the case neck you wish to resize.
- Insert the cartridge case into the die and apply steady pressure using the reloading press.
- Monitor the operation closely and stop if any unusual resistance is felt.
- After resizing, remove the cartridge case and inspect it for proper sizing.

Disposal Instructions

- Dispose of any used or damaged components in accordance with local regulations.
- Do not dispose of the die or any metal parts in regular household waste.
- Check with local waste management authorities for proper disposal methods for reloading materials.

Contact Information for Further Support

For any questions or concerns regarding the use of the Redding Type S Bushing Full Length Die, please refer to the manufacturer's contact information provided with the product packaging or on their official website.

By following these safety instructions, you can ensure a safe and effective reloading experience with your Redding Type S Bushing Full Length Die. Always prioritize safety and stay informed about best practices in reloading.
