

MICROMETER TOP BULLET SEATER DIES BLANKS - L.E. WILSON 30 CAL STAINLESS MICROMETER TOP SEATER DIE BLANK

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The L.E.Wilson Stainless Steel Micrometer Top Seater Dies positively controls both bullet and cartridge case alignment. The case and bullet are completely captured by the die prior to the bullet being pushed straight into the case by a close-fitting seating stem. This style of bullet seater works more accurately than a conventional (7/8"-14) bullet seating die. The stainless seaters have a built in micrometer seating depth adjustment feature with an easy to read scale in .001 graduations. These die blanks allow the reloader to have a custom die made to their exact dimensions or for wildcat cartridges.

****To be used with an Arbor Press****

Safety Instruction Guide for L.E. Wilson Stainless Steel Micrometer Top Seater Die Blanks

Introduction

Thank you for choosing the L.E. Wilson Stainless Steel Micrometer Top Seater Die Blanks. This product is designed to enhance your reloading experience by providing precise bullet seating. However, it is essential to follow safety guidelines to ensure safe use and prevent accidents. This guide outlines important safety information, usage instructions, and contact information for further support.

General Safety Guidelines

- Ensure that you read and understand all safety instructions before using the product.
- Always keep the product out of reach of children and vulnerable individuals.
- Use the product only for its intended purpose as specified in the product description.
- Regularly inspect the die for any signs of damage or wear before each use.
- Store the product in a dry and secure location to prevent unauthorized access.
- Report any unsafe products or incidents to the relevant authorities.

Specific Safety Precautions for Use

- Always wear appropriate safety gear, including safety glasses, when using the die.
- Ensure that the Arbor Press is securely mounted and stable before use.
- Avoid placing your hands or any body parts near the die while in operation.
- Do not modify the die or use it in any manner not specified by the manufacturer.
- Be cautious of sharp edges on the die and handle it with care to avoid cuts.

Instructions for Installation and Usage

1. Installation

- Securely mount the Arbor Press on a stable work surface.
- Ensure that the die is clean and free of debris before installation.
- Thread the die into the Arbor Press according to the manufacturer's instructions.
- Ensure that the die is properly aligned and tightened to prevent movement during use.

2. Usage

- Place the cartridge case in the die and ensure it is fully seated.
- Insert the bullet into the die, ensuring it is aligned with the cartridge case.
- Use the micrometer adjustment feature to set the desired seating depth.
- Slowly and steadily operate the Arbor Press to push the bullet into the case.
- Inspect the completed cartridge for proper seating and alignment.

Disposal Instructions

- Dispose of any damaged or unusable die blanks in accordance with local regulations.
- Do not dispose of the product in regular household waste.
- Consider recycling materials where possible to reduce environmental impact.

Contact Information for Further Support

For any inquiries or concerns regarding the use of this product, please reach out to the appropriate contact point provided by the manufacturer. Ensure that you have your product details ready for reference.

By following these safety guidelines and instructions, you can ensure a safe and effective reloading experience with your L.E. Wilson Stainless Steel Micrometer Top Seater Die Blanks. Thank you for prioritizing safety and compliance with the EU General Product Safety Regulation.
