

MATCH GRADE BUSHING - .287" DIAMETER MATCH BUSHING

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

The Hornady match Grade Dies feature interchangeable neck sizing bushings that are self centering. The bushings allow the user to size the case neck to the bullet tension you desire. This eliminates the chance of over-sizing your case necks and overworking the brass. Bushings are available in .002 inch increments. The Match Grade Full Length Die will size the case body, bump the shoulder and size the case neck with the selected bushing. The Match Grade Neck Die sizes the neck with the installed bushing and bumps the shoulder only (no body sizing). Both versions feature a self centering decap spindle with an o-ring spindle tensioner, and the elliptical expander ball with headed decap pin - the same pin used in the Custom Grade Dies. These bushing sizer dies have some unique features and are very well made and finished.

Attributes

- Name: [.287" DIAMETER MATCH BUSHING](#)
- Manufacturer: [HORNADY](#)
- Product no.: 749016866
- Mfr. No.: 594287

MATCH GRADE BUSHING Safety Instruction Guide

Introduction

Thank you for purchasing the MATCH GRADE BUSHING .287" DIAMETER MATCH BUSHING. This guide provides important safety information and instructions to ensure the safe and effective use of this product. Please read and follow all instructions carefully to avoid potential hazards.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Keep the product out of reach of children and vulnerable individuals.
- Inspect the product regularly for any signs of wear or damage before use.
- Always wear appropriate safety gear, such as eye protection, when using this product.
- Follow all local laws and regulations regarding the use of reloading equipment.

Specific Safety Precautions for Use

- Do not exceed the recommended sizing increments when using the bushings. Oversizing can lead to case damage.
- Always ensure the bushing is properly installed before use to prevent accidents.
- Do not use the bushing with incompatible dies or equipment.
- Avoid using excessive force during operation to prevent injury or damage to the bushing.
- If you experience any malfunction or irregular operation, cease use immediately and inspect the product.

Instructions for Installation and Usage

1. Installation of the Bushing:

- Ensure the die is clean and free of debris before installation.
- Select the appropriate bushing size for your needs.
- Insert the bushing into the neck sizing die until it is securely in place.
- Verify that the bushing is seated correctly and is selfcentering.

2. Using the Neck Sizing Die:

- Place the case into the die and ensure it is positioned correctly.
- Raise the ram slowly and apply even pressure to size the neck.
- After sizing, lower the ram and remove the case carefully.
- Inspect the sized case for any signs of damage or improper sizing.

3. Using the Full Length Die:

- Follow the same initial steps as for the neck sizing die.
- The fulllength die will size the body, bump the shoulder, and size the neck simultaneously.
- Ensure that the bushing is still correctly positioned during this process.

Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local regulations.
- Do not discard bushings in regular household waste. Check with local disposal facilities for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the MATCH GRADE BUSHING, please refer to the manufacturer's contact information provided on the product packaging or visit the official website for support resources.

Conclusion

By following these safety instructions and guidelines, you can ensure a safe and effective experience when using the MATCH GRADE BUSHING .287" DIAMETER MATCH BUSHING. Always prioritize safety and proper handling practices to maximize the longevity and performance of your equipment. Thank you for your attention to these important safety measures.
