

MATCH GRADE BUSHING - .292" DIAMETER MATCH BUSHING

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

The Hornady match Grade Dies feature interchangeable neck sizing bushings that are self centering. The bushings allow the user to size the case neck to the bullet tension you desire. This eliminates the chance of over-sizing your case necks and overworking the brass. Bushings are available in .002 inch increments. The Match Grade Full Length Die will size the case body, bump the shoulder and size the case neck with the selected bushing. The Match Grade Neck Die sizes the neck with the installed bushing and bumps the shoulder only (no body sizing). Both versions feature a self centering decap spindle with an o-ring spindle tensioner, and the elliptical expander ball with headed decap pin - the same pin used in the Custom Grade Dies. These bushing sizer dies have some unique features and are very well made and finished.

Attributes

- Name: [.292" DIAMETER MATCH BUSHING](#)
- Manufacturer: [HORNADY](#)
- Product no.: 749016869
- Mfr. No.: 594292

Safety Instruction Guide for MATCH GRADE BUSHING .292" DIAMETER MATCH BUSHING

Introduction

Thank you for choosing the MATCH GRADE BUSHING .292" DIAMETER MATCH BUSHING by Hornady. This product is designed to enhance your reloading experience by allowing precise neck sizing of your cases. To ensure safe and effective use, please read and follow the guidelines outlined in this safety instruction guide.

General Safety Guidelines

- Always handle the bushing with care to avoid injury.
- Ensure that the bushing is compatible with your reloading equipment.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the bushing for wear or damage before use.
- Do not exceed the recommended sizing increments to avoid damaging your brass.

Specific Safety Precautions for Use

- Use only the specified .292" diameter bushing for the intended application.
- Avoid using excessive force when sizing the case neck to prevent oversizing.
- Ensure that the bushing is properly installed before use.
- Keep your work area clean and organized to prevent accidents.
- Wear appropriate safety gear, such as safety glasses, when operating reloading equipment.

Instructions for Installation and Usage

1. Installation of the Bushing:

- Ensure that your reloading die is clean and free of debris.
- Carefully remove the existing bushing, if applicable.
- Insert the MATCH GRADE BUSHING .292" into the die, ensuring it is seated correctly.
- Secure the bushing in place according to the manufacturer's instructions.

2. Using the Bushing:

- Adjust your reloading press to the desired height for sizing.
- Place the case into the shell holder and ensure it is properly aligned.
- Slowly raise the press handle to size the case neck with the bushing.
- Monitor the tension applied to the case neck to avoid oversizing.
- After sizing, lower the press and remove the case for inspection.

3. Maintenance:

- Clean the bushing after each use to maintain its performance.
- Store the bushing in a dry, cool place to prevent corrosion.

Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local regulations.
- Do not throw the bushing in regular trash if it is deemed unsafe or hazardous.
- Consult local waste disposal guidelines for proper disposal methods.

Contact Information for Further Support

For any inquiries regarding safety or product information, please reach out to the designated EU contact point provided with your product.

Conclusion

By following these safety instructions, you can ensure a safe and effective experience with the MATCH GRADE BUSHING .292" DIAMETER MATCH BUSHING. Always prioritize safety and consult the guidelines regularly to stay informed about best practices. Thank you for your attention to these important safety measures.
