### **Ensure Accurate Resizing for Your 300 PRC Loads**

The Hornady+ match Grade Dies feature interchangeable neck sizing bushings that are self centering. The bushings allow the user to size the case neck to the bullet tension you desire. This eliminates the chance of over-sizing your case necks and overworking the brass. Bushings are available in .002 inch increments. The Match Grade Full Length Die will size the case body, bump the shoulder and size the case neck with the selected bushing. The Match Grade Neck Die sizes the neck with the installed bushing and bumps the shoulder only (no body sizing). Both versions feature a self centering decap spindle with an o-ring spindle tensioner, and the elliptical expander ball with headed decap pin - the same pin used in the Custom Grade Dies. These bushing sizer dies have some unique features and are very well made and finished.

### **Attributes**

- Name: [6.5X55MM SWEDE MATCH GRADE FULL LENGTH DIE](#)

# MATCH GRADE FULL LENGTH SIZING DIES

## 6.5X55MM SWEDE

### Introduction

Thank you for choosing the Hornady Match Grade Full Length Sizing Dies for your reloading needs. This guide provides important safety instructions to ensure the safe use of this product in compliance with the EU General Product Safety Regulation (GPSR). Please read this guide carefully before using the product.

### General Safety Guidelines

- Ensure safe use of the product by following all instructions provided in this guide.
- Be aware of potential risks associated with the use of reloading equipment.
- Always store the dies in a safe place, out of reach of children and vulnerable individuals.
- Report any unsafe products or accidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform regularly.

### Specific Safety Precautions for Use

- Always wear appropriate safety gear, including eye protection, when using reloading equipment.
- Ensure that your work area is clean and organized to prevent accidents.
- Do not exceed recommended load specifications for your ammunition.
- Use only compatible components with the sizing dies to prevent malfunctions.
- Keep the dies clean and well-maintained to ensure optimal performance and safety.
- Avoid distractions while using the dies to maintain focus and prevent errors.

### Instructions for Installation and Usage

#### 1. Installation of the Die:

- Ensure that your reloading press is securely mounted and stable.
- Insert the Match Grade Full Length Die into the press according to the manufacturer's instructions.
- Tighten the die securely to prevent movement during use.

#### 2. Using the Die:

- Select the appropriate neck sizing bushing for your desired bullet tension.
- Adjust the die to the correct height for sizing the case body and neck.
- Insert a clean, empty case into the shell holder and raise the ram to engage the die.
- Follow the recommended procedures for bumping the shoulder and sizing the case neck.
- Check the sized case for proper dimensions and ensure it meets specifications.

#### 3. Post-Use Care:

- Clean the dies after each use to remove any residue or debris.
- Store the dies in a protective case to prevent damage and contamination.
- Regularly inspect the dies and bushings for wear and replace as necessary.

### Disposal Instructions

- Dispose of any used or damaged components in accordance with local regulations.
- Do not dispose of reloading materials or hazardous substances in regular household waste.
- Check with local waste management authorities for proper disposal methods.

## **Contact Information for Further Support**

For any questions or concerns regarding the use of the Hornady Match Grade Full Length Sizing Dies, please refer to the manufacturer's website or contact their customer service for assistance.
