

# 6.5 GRENDEL TYPE S BUSHING NECK DIE SET - REDDING 6.5 GRENDEL BUSHING NECK DIE SET

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Redding 6.5 Grendel Type S Bushing Neck Die Set provides reloaders with a simple means to precisely control case neck size and tension. Uses interchangeable sizing bushing available in .001" increments. The adjustable decapping rod allows positioning the bushing to resize only a portion of the neck length if desired. Concentricity is enhanced by the ability of the resizing bushing to self-center on the case neck. The decapping rod is supplied with a standard size button. This is especially useful for reloaders who are using commercial brass as is. A decapping pin retainer is also supplied with most Type S Bushing Dies except 17 and 20 Caliber. This enables neck sizing without the use of the size button for those who sort and/or turn case necks for uniformity. Type S Bushing Neck Die Set includes a Type S Bushing Neck Sizing die, a Body Die, and a Regular Series 9200 Seating Die.

## Attributes

- Name: [REDDING 6.5 GRENDEL BUSHING NECK DIE SET](#)
- Manufacturer: [REDDING](#)

# Safety Instruction Guide for Redding 6.5 Grendel Type S Bushing Neck Die Set

## Introduction

Thank you for choosing the Redding 6.5 Grendel Type S Bushing Neck Die Set. This product is designed for reloaders who seek precision and control in their reloading processes. To ensure your safety and the proper use of this product, please read and follow the safety instructions carefully.

## General Safety Guidelines

- Always handle reloading equipment with care and respect.
- Ensure that your work area is clean, organized, and free from distractions.
- Use personal protective equipment (PPE) such as safety glasses and gloves when handling reloading materials.
- Keep this product out of reach of children and vulnerable individuals.
- Familiarize yourself with the product before use to understand its components and functions.
- Regularly check for any wear or damage to the product before and during use.

## Specific Safety Precautions for Use

- Ensure that the bushing is securely fitted before resizing cases.
- Do not exceed the recommended sizing limits of the bushing to avoid damaging the die or cases.
- When using the decapping rod, ensure that it is properly adjusted to prevent accidental breakage or injury.
- Avoid applying excessive force when resizing cases. If resistance is felt, stop and investigate the cause.
- Use the decapping pin retainer only as intended and ensure it is properly secured.
- If using commercial brass, ensure it is compatible with the die set.
- Always inspect cases for defects before resizing to prevent accidents.

## Instructions for Installation and Usage

### 1. Setup the Die Set:

- Remove the die set from its packaging and inspect it for any visible damage.
- Select the appropriate sizing bushing based on the desired neck tension.
- Install the Type S Bushing Neck Sizing die into your reloading press according to the manufacturer's instructions.

### 2. Adjusting the Decapping Rod:

- Loosen the decapping rod lock nut.
- Adjust the decapping rod to the desired height, ensuring it aligns correctly with the bushing.
- Tighten the lock nut securely after adjustment.

### 3. Resizing Cases:

- Insert a clean, inspected case into the die.
- Slowly raise the press handle to resize the neck of the case.
- If only partial neck resizing is desired, adjust the bushing position accordingly.

### 4. Seating Bullets:

- Install the Regular Series 9200 Seating Die into the press following similar steps.
- Adjust the seating depth as per your reloading requirements.

## 5. Cleaning and Maintenance:

- After use, clean the die set with a suitable cleaning solution to remove any residue.
- Store the die set in a dry place to prevent rust and corrosion.

## Disposal Instructions

- Dispose of any used or damaged components in accordance with local regulations.
- Do not dispose of reloading materials or components in regular household waste.
- Check with local authorities for proper disposal methods for hazardous materials.

## Contact Information for Further Support

For any safety inquiries or further assistance, please refer to the manufacturer's contact information provided with the product packaging or visit the official website.

By following these safety instructions, you can ensure a safe and effective reloading experience with your Redding 6.5 Grendel Type S Bushing Neck Die Set. Thank you for prioritizing safety in your reloading activities.
