

STANDARD BULLET SEATING MICROMETERS - REDDING #9

STANDARD BULLET SEATING MICROMETER

[Reloading](#) > [Reloading Dies](#) > [Replacement Parts & Upgrades](#)

Redding Competition Seating Dies deliver the precision and accuracy preferred by the most discriminating handloaders. Now you can easily convert your conventional seating die to a precision micrometer seating die for use with STD (standard) bullets for precise, repeatable bullet seating depths to within 1/1000th of an inch and potential world-record accuracy. Designed for all seating dies that use a seat plug with ½-20 threads. Easily changes from one die to another, just match the number on your current seating plug to the corresponding bullet seating micrometer number. View Redding Micrometer Reference Chart [here](#).

Safety Instruction Guide for Redding Standard Bullet Seating Micrometers

Introduction

Thank you for choosing the Redding Standard Bullet Seating Micrometers. This guide provides essential safety instructions and guidelines to ensure safe and effective use of this product. Please read this manual carefully before use to understand all safety precautions and operational instructions.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Keep the micrometer and all components out of reach of children and vulnerable individuals.
- Inspect the product regularly for any signs of damage or wear. Do not use if damaged.
- Always use the micrometer in a welllit area to avoid accidents.
- Follow all local regulations and guidelines when using this product.
- If you experience any issues or have questions, seek assistance from trained professionals.

Specific Safety Precautions for Use

- Use the micrometer only with compatible seating dies that utilize a seat plug with ½20 threads.
- Avoid applying excessive force when adjusting the micrometer to prevent damage.
- Ensure that the micrometer is securely attached to the seating die before use.
- Do not modify or alter the micrometer in any way, as this may compromise safety and accuracy.
- Always wear appropriate safety gear, such as safety glasses, when using this product.
- Be aware of your surroundings to prevent accidents while using the micrometer.

Instructions for Installation and Usage

1. Installation:

- Identify the current seating plug on your seating die.
- Match the number on your current seating plug with the corresponding bullet seating micrometer number.
- Carefully remove the existing seating plug from the die.
- Install the Redding bullet seating micrometer by screwing it into the die until secure.

2. Usage:

- Adjust the micrometer to the desired bullet seating depth by turning the adjustment knob.
- Ensure that the adjustment is precise, aiming for a depth within 1/1000th of an inch.
- Perform a test seating with a dummy round to verify the seating depth before proceeding with live ammunition.
- After use, return the micrometer to its storage case to protect it from damage.

Disposal Instructions

- Dispose of the product in accordance with local regulations and guidelines for nonfood products.
- Do not dispose of the micrometer with household waste. Instead, take it to a designated recycling center if available.
- Ensure that any packaging materials are also disposed of responsibly.

Contact Information for Further Support

For any safety inquiries or support regarding this product, please refer to the manufacturer's contact information, which can typically be found on their official website or product packaging.

By following these guidelines and instructions, you can ensure a safe and effective experience with your Redding Standard Bullet Seating Micrometers. Thank you for your attention to safety and compliance.
