

STANDARD BULLET SEATING MICROMETERS - REDDING #13

STANDARD BULLET SEATING MICROMETER

[Reloading](#) > [Reloading Dies](#) > [Replacement Parts & Upgrades](#)

Redding Competition Seating Dies deliver the precision and accuracy preferred by the most discriminating handloaders. Now you can easily convert your conventional seating die to a precision micrometer seating die for use with STD (standard) bullets for precise, repeatable bullet seating depths to within 1/1000th of an inch and potential world-record accuracy. Designed for all seating dies that use a seat plug with 1/2-20 threads. Easily changes from one die to another, just match the number on your current seating plug to the corresponding bullet seating micrometer number. View Redding Micrometer Reference Chart here.

Safety Instruction Guide for Redding Standard Bullet Seating Micrometers

Introduction

Thank you for choosing the Redding Standard Bullet Seating Micrometer. This guide provides essential safety instructions and usage guidelines to ensure safe and effective operation of the product. Please read this manual carefully before use.

General Safety Guidelines

- Always use the micrometer in a welllit area to ensure clear visibility.
- Keep the micrometer and all related tools out of reach of children.
- Inspect the micrometer for any damage or defects before each use. Do not use if damaged.
- Follow all manufacturer instructions for installation and usage to prevent accidents.
- Report any unsafe conditions or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- Ensure that the seating die is compatible with the micrometer before installation.
- Avoid excessive force when adjusting the micrometer settings to prevent damage.
- Use appropriate personal protective equipment (PPE), such as safety glasses, when reloading ammunition.
- Be aware of your surroundings and ensure that no one is in the immediate area when using the micrometer.
- Keep your hands and fingers clear of moving parts during operation.

Instructions for Installation and Usage

1. Installation:

- Ensure the seating die is clean and free of debris.
- Remove the existing seating plug from the die.
- Match the number on your current seating plug to the corresponding bullet seating micrometer number.
- Install the micrometer by screwing it into the die using the $\frac{1}{2}20$ threads until secure.

2. Usage:

- Adjust the micrometer to the desired bullet seating depth by turning the adjustment knob.
- Make small adjustments and check the depth frequently to ensure accuracy.
- After achieving the desired depth, lock the micrometer in place to maintain the setting.
- Always doublecheck the seating depth before finalizing the bullet seating process.

Disposal Instructions

- Dispose of the micrometer and any associated packaging materials in accordance with local regulations.
- Do not dispose of the micrometer in regular household waste. Check for local recycling programs or hazardous waste disposal facilities.

Contact Information for Further Support

For any inquiries or concerns regarding the Redding Standard Bullet Seating Micrometer, please refer to the manufacturer's contact information provided with your product packaging.

Thank you for following these safety guidelines. Your safety is our priority.
