

FLAT BULLET SEATING MICROMETER - REDDING #13 FLAT BULLET SEATING MICROMETER

[Reloading](#) > [Reloading Dies](#) > [Replacement Parts & Upgrades](#)

Redding Bullet Seating Micrometers are for use with most standard Redding Seating Dies and provide a direct replacement for the original seat plug. They provide a direct replacement for the original seat plugs and can easily be changed from one die to another. Redding Bullet Seating Micrometers for bottleneck cartridges are available for traditional bullet shapes (STD) and for VLD bullet shapes (VLD). They are also available for handgun and straight wall cartridges with traditional bullet shapes (STD) and flat nose bullet designs (FLAT).

Safety Instruction Guide for FLAT BULLET SEATING MICROMETER REDDING #13

Introduction

Thank you for choosing the Redding FLAT BULLET SEATING MICROMETER. This guide provides essential safety information and instructions for the proper use of this product. Please read this manual carefully to ensure safe and effective usage.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose as described in this guide.
- Always handle the micrometer with care to avoid accidental injury.
- Store the micrometer in a dry and secure location, away from children and pets.
- Regularly inspect the micrometer for any signs of damage or wear. If damaged, discontinue use immediately.
- Follow all local laws and regulations regarding the use of reloading equipment and components.

Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE) when using the micrometer, including safety glasses.
- Do not exceed the recommended specifications for bullet seating. Overseating may cause dangerous pressure levels in the cartridge.
- Be aware of your surroundings when using the micrometer to avoid distractions and potential accidents.
- Ensure that the work area is welllit and free from clutter.
- Keep fingers and other body parts away from the die and seating area during operation.

Instructions for Installation and Usage

1. Installation:

- Ensure that your reloading bench is stable and secure.
- Remove the original seat plug from the Redding Seating Die by following the manufacturer's instructions.
- Carefully install the Redding FLAT BULLET SEATING MICROMETER by screwing it into the die until it is snug. Do not overtighten.
- Verify that the micrometer is correctly seated and aligned before proceeding.

2. Usage:

- Before using the micrometer, ensure that the die is clean and free from debris.
- Set the desired bullet seating depth using the micrometer's adjustment feature.
- Insert the bullet into the case mouth and raise the ram to seat the bullet.
- After seating, check the overall cartridge length to ensure it meets your specifications.
- Repeat the process for additional cartridges, adjusting the micrometer as necessary.

Disposal Instructions

- Dispose of any damaged or unusable components in accordance with local regulations.
- Do not dispose of the micrometer in regular household waste. Check for local recycling programs or hazardous waste disposal options.
- Ensure that all packaging materials are disposed of responsibly, following local recycling guidelines.

Contact Information for Further Support

For any inquiries regarding safety, usage, or maintenance of the Redding FLAT BULLET SEATING MICROMETER, please contact the manufacturer's customer support or visit their official website for assistance.

Note: Always stay informed about product recalls and safety updates through the EU's Safety Gate platform. Report any unsafe products or incidents to the appropriate authorities.
