

# **BUSHING FULL LENGTH DIES - L.E. WILSON 6MM PPC SAKO BUSHING FULL LENGTH SIZING DIE**

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Wilson Bushing Type Full Length Sizing Die. This die will allow you to size the case neck to your desired neck tension along with sizing down the rest of the case body at the same time. Die includes an adjustable depth decapping rod. An extra Decapping Punch is included. These dies do not contain an expander. Made of High Quality Heat Treated Steel. These Full Length Bushing dies mimic the neck sizing of Wilsons' neck sizing dies and are designed to leave 3/16" at the bottom of the case neck unsized, a practice many shooters prefer and find to be more accurate than sizing the full neck. Made from High Quality Material - Hardened to L.E. Wilson Specifications Harder than a Grade 8 Bolt Interchangeable Bushings Standard 7/8ths Reloading Press Sizes Shoulder and Body Dimensions Stainless Parts for a Long Lasting Finish Durable and Accurate L.E. Wilson manufactured lock nut - thickness is .225" from inside to outermost edge .270" for height and 1.250" total width OD. Neck Bushing sold separately, we suggest using LE Wilson Neck bushings but Redding bushings will also fit.

# Safety Instructions for BUSHING FULL LENGTH DIES L.E. WILSON 6MM PPC

## Introduction

Thank you for choosing the BUSHING FULL LENGTH DIES L.E. WILSON 6MM PPC. This product is designed for precision reloading of ammunition. To ensure safe and effective use, please read and follow these safety instructions carefully.

## General Safety Guidelines

- Always handle the die with care to prevent injury.
- Keep the die out of reach of children and unauthorized users.
- Ensure you are familiar with the reloading process before using this product.
- Use protective gear, such as safety glasses and gloves, when handling ammunition components.
- Store the die in a dry, secure location to prevent damage and unauthorized access.
- Regularly inspect the die for wear or damage before each use.
- Follow all relevant local laws and regulations regarding ammunition reloading.

## Specific Safety Precautions for Use

- Do not exceed the recommended load specifications for your ammunition.
- Ensure that the die is compatible with your specific reloading press.
- Always use the adjustable depth decapping rod correctly to avoid accidents.
- Avoid using the die for any purpose other than its intended use.
- If you experience any unusual resistance or difficulties while using the die, stop immediately and inspect for issues.
- Be aware of the potential for metal shavings or debris during operation; clean the area regularly.

## Instructions for Installation and Usage

### 1. Installation:

- Secure the die in your reloading press according to the manufacturer's instructions.
- Ensure the die is tightened properly to prevent movement during use.
- Adjust the depth decapping rod according to your preferences for neck tension.

### 2. Usage:

- Begin by preparing your cases according to standard reloading procedures.
- Insert the case into the die and ensure it is properly aligned.
- Apply steady pressure to size the case neck and body simultaneously.
- After sizing, remove the case carefully, checking for any signs of damage.
- Store the die in its protective case after use to maintain its quality.

## Disposal Instructions

- Dispose of any damaged or worn components in accordance with local regulations.
- Ensure that all metal parts are recycled where possible.
- Do not dispose of the die in regular household waste.

## **Contact Information for Further Support**

For any questions or concerns regarding the BUSHING FULL LENGTH DIES L.E. WILSON 6MM PPC, please contact your retailer or visit the manufacturer's website for additional support and resources.

By following these safety instructions, you can ensure a safe and productive reloading experience. Thank you for your attention to safety, and enjoy your reloading process!
