

BUSHING FULL LENGTH DIES - L.E. WILSON 6.5X47MM LAPUA BUSHING FULL LENGTH SIZING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Wilson Bushing Type Full Length Sizing Die. This die will allow you to size the case neck to your desired neck tension along with sizing down the rest of the case body at the same time. Die includes an adjustable depth decapping rod. An extra Decapping Punch is included. These dies do not contain an expander. Made of High Quality Heat Treated Steel. These Full Length Bushing dies mimic the neck sizing of Wilsons' neck sizing dies and are designed to leave 3/16" at the bottom of the case neck unsized, a practice many shooters prefer and find to be more accurate than sizing the full neck. Mad from High Quality Material - Hardened to L.E. Wilson Specifications Harder than a Grade 8 Bolt Interchangeable Bushings Standard 7/8ths Reloading Press Sizes Shoulder and Body Dimensions Stainless Parts for a Long Lasting Finish Durable and Accurate L.E. Wilson manufactured lock nut - thickness is .225" from inside to outermost edge .270" for height and 1.250" total width OD. Neck Bushing sold separately, we suggest using LE Wilson Neck bushings but Redding bushings will also fit.

Safety Instruction Guide for BUSHING FULL LENGTH DIES L.E. WILSON 6.5X47MM LAPUA

Introduction

Thank you for choosing the BUSHING FULL LENGTH DIES L.E. WILSON 6.5X47MM LAPUA. This product is designed for precision reloading and is built with highquality materials to ensure durability and accuracy. However, it is essential to follow safety guidelines to ensure your safety and the proper functioning of the product.

General Safety Guidelines

- Ensure that you read and understand all instructions before using this product.
- Always use the dies in accordance with the manufacturer's specifications.
- Keep the dies and all related equipment out of reach of children and vulnerable individuals.
- Regularly inspect the dies for any signs of damage or wear before use.
- Report any unsafe conditions or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- Always wear appropriate safety gear, including safety glasses, when handling reloading equipment.
- Avoid using the dies if you are tired, distracted, or under the influence of substances that could impair your judgment.
- Use only compatible components with the dies to avoid malfunctions or accidents.
- Do not exceed the recommended load limits when reloading ammunition.
- Ensure that your reloading workspace is welllit and free of clutter to minimize the risk of accidents.

Instructions for Installation and Usage

1. Installation:

- Securely attach the bushing fulllength die to your reloading press using the standard 7/8ths thread.
- Adjust the die to the desired depth using the adjustable decapping rod.
- Verify that the die is properly aligned with the press before use.

2. Usage:

- Insert the brass case into the die and ensure it is seated correctly.
- Operate the reloading press to size the case neck and body simultaneously.
- After sizing, carefully remove the case from the die.
- Inspect the sized case for uniformity and proper neck tension.

3. PostUsage:

- Clean the die after each use to prevent residue buildup.
- Store the die in a dry and secure location to protect it from damage.

Disposal Instructions

- Dispose of any damaged or wornout reloading dies following local regulations for hazardous waste.
- Do not dispose of the product in regular household waste. Instead, contact local authorities for proper disposal methods.

Contact Information for Further Support

For any inquiries regarding safety or product functionality, please refer to the manufacturer's contact information provided with your product packaging.

By following these guidelines, you can ensure a safe and effective reloading experience with your BUSHING FULL LENGTH DIES L.E. WILSON 6.5X47MM LAPUA. Thank you for your attention to safety, and happy reloading!
