Safety Instruction Guide for L.E. Wilson Micrometer Top Bullet Seater Die

Introduction

Thank you for choosing the L.E. Wilson Micrometer Top Bullet Seater Die for your reloading needs. This guide provides essential safety instructions to ensure the safe use of this product. Please read this guide carefully before using the die to ensure your safety and the safety of others.

General Safety Guidelines

- Always handle the die with care and ensure it is stored securely when not in use.
- Use the die only for its intended purpose, which is to seat bullets accurately in reloading applications.
- Keep the die out of reach of children and pets.
- Inspect the die regularly for any signs of damage or wear before each use.
- If you notice any irregularities, discontinue use immediately and contact a qualified technician for assistance.
- Ensure that you are using the die with an appropriate Arbor Press as specified.

Specific Safety Precautions for Use

- Use proper eye protection when operating the die to prevent injury from flying debris or accidents.
- Always follow the manufacturer's guidelines for bullet seating depths to avoid overseating or underseating bullets.
- Do not exceed the recommended load limits for your specific cartridge.
- Ensure that your workspace is clean and organized to avoid accidents while using the die.
- Avoid wearing loose clothing or jewelry that may get caught in the equipment.
- Do not attempt to modify the die or its components as this may lead to unsafe conditions.

Instructions for Installation and Usage

1. Setup:

- Securely mount the Arbor Press on a stable work surface.
- Ensure that the die is clean and free from debris before installation.

2. Installation:

- Thread the die into the Arbor Press according to the manufacturer's instructions.
- Adjust the micrometer top to the desired bullet seating depth using the scale in 0.001" increments.

3. Usage:

- Place the case with the bullet in the die.
- Apply steady pressure to the Arbor Press handle to seat the bullet.
- Check the seating depth using a caliper to confirm accuracy.
- Repeat the process as necessary for additional bullets.

4. PostUsage:

- After use, clean the die thoroughly to remove any residue or debris.
- Store the die in a safe and dry location away from children.

Disposal Instructions

- Dispose of any damaged or broken components in accordance with local regulations.
- Do not dispose of the die in regular household waste. Instead, contact your local waste management authority for proper disposal methods.

Contact Information for Further Support

For any questions regarding the safety and use of the L.E. Wilson Micrometer Top Bullet Seater Die, please consult with your dealer or manufacturer. Ensure that you have the product details available for reference.

By following these safety instructions, you can enjoy a safe and effective reloading experience with your L.E. Wilson Micrometer Top Bullet Seater Die. Always prioritize safety and consult the guidelines provided to ensure proper usage. Thank you for your attention to these important safety measures.
