Safety Instruction Guide for L.E. Wilson Micrometer Top Bullet Seater Die

Introduction

Thank you for choosing the L.E. Wilson Micrometer Top Bullet Seater Die for your reloading needs. This product is designed to provide accurate bulletseating depths, ensuring optimal performance in your shooting activities. To ensure safe and effective use, please read this safety instruction guide thoroughly.

General Safety Guidelines

- **Product Safety:** This product is designed to meet safety standards for nonfood items. Ensure safe handling and use.
- **Enhanced Recalls:** Stay informed about any recalls related to this product. Follow instructions provided in recall notices.
- **Online Shopping:** If purchased online, ensure the platform meets safety requirements similar to physical stores.
- **Special Consumer Focus:** This product is not intended for use by children. Keep out of reach of minors.
- **EU Contact Point:** For safety inquiries, please refer to the designated EU contact point provided by the retailer.
- **Rapid Alerts:** Monitor the EU's Safety Gate platform for updates on unsafe products.

Specific Safety Precautions for Use

- **Hazard Identification:**
 - The product contains sharp edges and moving parts. Handle with care to avoid cuts or injuries.
 - Ensure the die is securely attached to the Arbor Press before use to avoid accidents.
- **Avoiding Hazards:**
 - Always wear safety glasses when reloading to protect your eyes from debris.
 - Keep hands clear of the die while operating the Arbor Press.
 - Do not use the die if it appears damaged or has missing components.
- **Age Specific Warnings:**
 - This product is intended for use by adults only. Ensure that children are not present during operation.

Instructions for Installation and Usage

- **Installation:**
 1. **Secure the Arbor Press:** Place the Arbor Press on a stable, level surface.
 2. **Attach the Die:** Screw the Micrometer Top Bullet Seater Die into the Arbor Press until secure.
 3. **Set the Micrometer:** Adjust the micrometer scale to the desired bulletseating depth in 0.001" increments.
- **Usage:**
 1. **Prepare the Components:** Ensure you have all necessary reloading components (bullets, cases, powder).
 2. **Load the Bullet:** Place the bullet into the case, aligning it with the die.
 3. **Press the Bullet:** Operate the Arbor Press to seat the bullet to the desired depth.
 4. **Check the Depth:** Measure the bulletseating depth using calipers to ensure accuracy.
 5. **Repeat as Necessary:** Adjust the micrometer for different bullet lengths as needed.

Disposal Instructions

- Dispose of the product in accordance with local waste disposal regulations.
- Do not dispose of the product in regular household waste if it is damaged or contains hazardous materials.
- Consider recycling options for metal components when applicable.

Contact Information for Further Support

For any questions or concerns regarding the L.E. Wilson Micrometer Top Bullet Seater Die, please refer to the contact information provided by your retailer or manufacturer. Ensure you have the product details ready for efficient assistance.

Thank you for adhering to these safety guidelines. Enjoy your reloading experience with the L.E. Wilson Micrometer Top Bullet Seater Die.
