# Safety Instruction Guide for L.E. Wilson Micrometer Top Bullet Seater Die

## Introduction

Thank you for choosing the L.E. Wilson Micrometer Top Bullet Seater Die for your reloading needs. This guide is designed to provide you with essential safety information and instructions for the safe and effective use of this product. Please read this guide carefully to ensure safe operation and compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- **Product Safety:** Ensure safe use of the L.E. Wilson Micrometer Top Bullet Seater Die by following all instructions and guidelines. This product is designed for use with nonfood items and is compliant with relevant safety standards.
- **Enhanced Recalls:** Stay informed about any potential recalls. If you receive a recall notice, follow the instructions provided to ensure your safety.
- **Online Shopping:** If purchased online, ensure that the retailer complies with EU safety requirements. Verify that the product is genuine and in good condition upon arrival.
- **Special Consumer Focus:** This product is not intended for use by children. Ensure that it is stored in a safe place out of reach of minors.
- **EU Contact Point:** For any safety inquiries, please refer to the contact information provided by the retailer or manufacturer.
- **Rapid Alerts:** Stay updated on any safety alerts regarding this product through the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when using the bullet seater die.
- Ensure that the Arbor Press used with this die is in good working condition and suitable for the task.
- Keep your work area clean and organized to prevent accidents.
- Do not exceed the recommended specifications for bullet seating depth to avoid dangerous situations.
- Never attempt to modify or repair the die yourself. Contact a qualified technician for any repairs or adjustments.
- Store the die in a secure location when not in use to prevent unauthorized access.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools and materials, including the L.E. Wilson Micrometer Top Bullet Seater Die, Arbor Press, and reloading components.
- Ensure your workspace is clean and welllit.

### 2. Installation:

- Attach the bullet seater die to the Arbor Press according to the manufacturer's instructions.
- Ensure that the die is securely fastened and properly aligned.

### 3. Usage:

- Set the micrometer top to the desired bulletseating depth using the scale in 0.001" increments.

- Place the bullet in the die and apply steady pressure using the Arbor Press.
- Check the seating depth after each adjustment to ensure accuracy.
- If testing at the range, load your bullets long and take the die and press with you to test seating depth.

#### 4. **PostUsage:**

- After use, clean the die to remove any residue or debris.
- Store the die in a protective case or container to prevent damage.

## **Disposal Instructions**

- Dispose of any packaging materials in accordance with local regulations.
- If the die becomes damaged or is no longer usable, contact your local waste management authority for guidelines on proper disposal.
- Do not dispose of the die in regular household waste. Follow applicable recycling and disposal regulations.

## **Contact Information for Further Support**

For any questions or concerns regarding the L.E. Wilson Micrometer Top Bullet Seater Die, please refer to the contact information provided by the retailer or manufacturer. They will be able to assist you with any inquiries related to safety, usage, or support.

By following these guidelines and instructions, you can ensure a safe and effective experience with your L.E. Wilson Micrometer Top Bullet Seater Die. Thank you for prioritizing safety in your reloading practices.
