

BUSHING BUMP NECK DIE KITS - FORSTER PRODUCTS, INC. 6MM PPC BUSHING BUMP NECK DIE KIT

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Thanks to the Forster Bushing Bump Neck Die Kits, precision reloaders can now finely control the amount of tension put on the necks of their cartridges. Each of these sizing-die kits includes a hand-polished sizing die that perfectly matches the caliber of your firearm, as well as three hand-selected bushing sizes that are picked by Forster staff themselves. Each of the bushings are finely machined to a smooth internal finish. Available calibers in the Forster Bushing Bump Neck Die Kits are .284 Winchester, 6.8 SPC and 6mm Creedmoor.

Safety Instruction Guide for Bushing Bump Neck Die Kits

Introduction

Thank you for choosing the Forster Bushing Bump Neck Die Kits. This guide provides essential safety instructions to ensure safe and effective use of the product. By following these guidelines, you can enhance your reloading experience while maintaining safety and compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Read all instructions and safety warnings before using the product.
- Ensure that the product is used only for its intended purpose.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of damage or wear.
- Store the product in a dry and secure location when not in use.
- Report any unsafe products or accidents to the relevant authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Always wear appropriate eye protection when using reloading equipment.
- Use the die kit in a wellventilated area to avoid inhalation of any particles.
- Ensure that all components are properly assembled before use.
- Do not exceed the recommended load limits for your specific caliber.
- Handle all reloaded ammunition with care, treating it as live ammunition.
- Do not modify the die kit or its components in any way.
- Be aware of the potential hazards associated with handling gunpowder and primers.

Instructions for Installation and Usage

1. Preparation

- Gather all necessary tools and materials, including the Bushing Bump Neck Die Kit, reloading press, and appropriate caliber components.
- Ensure your workspace is clean and organized.

2. Installation of the Die Kit

- Securely attach the sizing die to your reloading press according to the manufacturer's instructions.
- Select the appropriate bushing size based on your cartridge specifications.
- Insert the selected bushing into the die and ensure it is properly seated.

3. Reloading Process

- Begin by resizing the brass cases using the sizing die.
- Follow the reloading data specific to your caliber for powder charges and bullet seating depths.
- Inspect each reloaded cartridge for any defects before use.

4. After Use

- Clean the die and bushing after each use to maintain optimal performance.

- Store the die kit in its original packaging or a safe location to prevent damage.

Disposal Instructions

- Dispose of any damaged or worn components in accordance with local regulations.
- Do not dispose of live ammunition or spent primers in regular trash.
- Contact local waste management authorities for proper disposal methods of hazardous materials.

Contact Information for Further Support

For any inquiries regarding safety or product usage, please refer to the contact information provided by the manufacturer or retailer where the product was purchased. Always ensure that you have the latest information and support available.

By following these safety instructions, you can ensure a safer and more enjoyable reloading experience with your Forster Bushing Bump Neck Die Kit. Thank you for your attention to these important guidelines.
