

# **BUSHING BUMP NECK DIE KITS - FORSTER PRODUCTS, INC. 260 REMINGTON BUSHING BUMP NECK DIE KIT**

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Thanks to the Forster Bushing Bump Neck Die Kits, precision reloaders can now finely control the amount of tension put on the necks of their cartridges. Each of these sizing-die kits includes a hand-polished sizing die that perfectly matches the caliber of your firearm, as well as three hand-selected bushing sizes that are picked by Forster staff themselves. Each of the bushings are finely machined to a smooth internal finish. Available calibers in the Forster Bushing Bump Neck Die Kits are .284 Winchester, 6.8 SPC and 6mm Creedmoor.

# BUSHING BUMP NECK DIE KITS SAFETY INSTRUCTION GUIDE

## Introduction

Thank you for choosing the Forster Bushing Bump Neck Die Kit for your reloading needs. This guide provides important safety instructions to ensure the safe and effective use of this product. Please read and follow these guidelines carefully to minimize risks and enhance your reloading experience.

## General Safety Guidelines

- Always handle all reloading equipment with care to prevent accidents.
- Ensure that the workspace is clean, organized, and free from distractions.
- Use the die kit only for its intended purpose, which is to resize and reload cartridges.
- Keep the die kit and all reloading components out of the reach of children and unauthorized users.
- Always wear appropriate safety gear, including safety glasses and gloves, when using reloading equipment.
- Be aware of the specific hazards associated with reloading, including the handling of powders and primers.

## Specific Safety Precautions for Use

### • Hazard Identification:

- Risk of injury from sharp edges on the die.
- Risk of explosion from improper handling of primers and powders.
- Risk of improper cartridge sizing leading to malfunctions.

### • Avoiding Hazards:

- Inspect the die kit for any damage before use. Do not use if damaged.
- Follow the manufacturer's specifications for cartridge dimensions and loading data.
- Never exceed recommended powder charges.
- Always check for proper fit of the bushing in the sizing die before use.
- Ensure that the reloading press is secured and stable before operating.

### • Age Specific Warnings:

- This product is intended for use by individuals aged 18 and older. Ensure that all users are aware of the safety precautions.

## Instructions for Installation and Usage

### • Installation:

1. Unpack the bushing bump neck die kit and ensure all components are included.
2. Select the appropriate bushing size for your cartridge.
3. Install the sizing die into your reloading press according to the manufacturer's instructions.
4. Secure the bushing in the die, ensuring it is properly seated.

### • Usage:

1. Prepare your brass cartridges by cleaning and inspecting them for damage.

2. Adjust the die to achieve the desired neck tension on the cartridge.
3. Follow the reloading manual for specific powder charges and bullet seating depths.
4. Reload cartridges in a wellventilated area, away from open flames or sparks.
5. After resizing, inspect each cartridge for proper dimensions and any signs of damage.

## Disposal Instructions

- Dispose of any unused or expired reloading components, including primers and powders, in accordance with local regulations.
- Do not dispose of reloading materials in regular household waste.
- Contact your local waste management authority for guidance on proper disposal methods.

## Contact Information for Further Support

For assistance or to report safety concerns, please contact the manufacturer or your local authorities. Ensure you have the product details available when seeking support.

## Conclusion

By following these safety instructions and guidelines, you can safely enjoy the benefits of the Forster Bushing Bump Neck Die Kit. Always prioritize safety in your reloading practices and stay informed about best practices and potential hazards. Thank you for choosing Forster Products, Inc. for your reloading needs.
