

CLICK ADJUST BUSHING FULL LENGTH DIE - WHIDDEN GUNWORKS

300 NORMA MAGNUM BUSHING FULL LENGTH DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Adjusting shoulder bump has never been easier. The Whidden Gunworks Click Adjustable Bushing Full Length Sizer Die and lock ring work together to give the user a clicking feel to the adjustment just like a high end rifle scope. Each click moves the shoulder bump .001" so you can easily find the exact shoulder bump that you desire.

Included with the Click Adjustable Sizer Die is a Shoulder Bump Gauge. This gauge attaches to standard calipers and allows measurement from the case shoulder to the base. Using the Shoulder Bump Gauge with the Click Adjustable Sizer Die will make the proper sizer die setup easier than ever before.

Safety Instruction Guide for CLICK ADJUST BUSHING FULL LENGTH DIE WHIDDEN GUNWORKS 300 NORMA MAGNUM BUSHING FULL LENGTH DIE

Introduction

Thank you for choosing the Whidden Gunworks Click Adjustable Bushing Full Length Die for your reloading needs. This guide provides essential safety information to ensure the safe and effective use of this product. Please read this guide carefully and keep it for future reference.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose, which is to adjust shoulder bump for reloading 300 Norma Magnum cartridges.
- Always work in a wellventilated area to avoid inhaling any dust or particles that may occur during the reloading process.
- Keep the product out of reach of children and vulnerable individuals to prevent accidental injury.
- Regularly inspect the die for any signs of wear or damage before use. Do not use if damaged.
- Follow all local laws and regulations regarding reloading and ammunition.

Specific Safety Precautions for Use

- Always wear safety glasses to protect your eyes from debris and particles.
- Use the Shoulder Bump Gauge as instructed to ensure accurate measurements and avoid incorrect adjustments.
- Do not exceed the recommended adjustments. Each click of the die adjusts the shoulder bump by .001 inches; excessive adjustments can lead to unsafe reloading practices.
- Ensure that your calipers are calibrated correctly before using the Shoulder Bump Gauge.
- Handle all reloading materials, including primers and powders, with care and according to the manufacturer's instructions.

Instructions for Installation and Usage

1. Installation of the Die:

- Secure the Click Adjustable Bushing Full Length Die in your reloading press according to the manufacturer's instructions.
- Ensure that the die is tightened properly to prevent movement during operation.

2. Using the Shoulder Bump Gauge:

- Attach the Shoulder Bump Gauge to your standard calipers as per the provided instructions.
- Measure the distance from the case shoulder to the base of the case to determine the current shoulder bump.

3. Adjusting the Die:

- Begin by making a small adjustment to the die using the click mechanism; each click adjusts the shoulder bump by .001 inches.
- After each adjustment, resize a test case and measure the shoulder bump again using the Shoulder Bump Gauge.
- Repeat the adjustment process until you reach the desired shoulder bump measurement.

4. Final Steps:

- Once the correct adjustment is achieved, proceed with reloading your cartridges as per standard reloading practices.
- Keep a log of adjustments made for future reference.

Disposal Instructions

- Dispose of any unused or expired reloading materials in accordance with local regulations.
- Do not throw the product in regular household waste. Instead, contact your local waste management facility for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the use of this product, please refer to the manufacturer's website or customer support resources.

By following these safety instructions, you can ensure a safe and effective reloading experience with the Whidden Gunworks Click Adjustable Bushing Full Length Die. Thank you for your attention to safety.
