

# CLICK ADJUST FULL LENGTH DIE SET - WHIDDEN GUNWORKS 260 REMINGTON FULL LENGTH DIE SET

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Adjusting shoulder bump has never been easier. The Whidden Gunworks Click Adjustable Bushing Full Length Sizer Die and lock ring work together to give the user a clicking feel to the adjustment just like a high end rifle scope. Each click moves the shoulder bump .001" so you can easily find the exact shoulder bump that you desire. Included with the Click Adjustable Sizer Die Set is a Micrometer Adjustable Seating die and Shoulder Bump Gauge. This gauge attaches to standard calipers and allows measurement from the case shoulder to the base.

# Safety Instruction Guide for Click Adjust Full Length Die Set

## Introduction

Thank you for choosing the Click Adjust Full Length Die Set by Whidden Gunworks. This product is designed to help you achieve precise measurements for your reloading needs. To ensure safe and effective use, please read and follow the safety instructions outlined in this guide.

## General Safety Guidelines

- Always handle reloading equipment with care and respect.
- Ensure that your workspace is clean, organized, and free from distractions.
- Store the die set in a safe place, out of reach of children and pets.
- Use the die set only for its intended purpose, which is to resize and adjust cartridge cases.
- Be aware of the potential hazards associated with reloading, including the risk of injury and explosion if not done correctly.

## Specific Safety Precautions for Use

- Wear safety glasses to protect your eyes from debris and accidental discharges.
- Use gloves to protect your hands from sharp edges and chemicals.
- Ensure that the work area is wellventilated to avoid inhaling any fumes or dust.
- Do not exceed the recommended adjustments for shoulder bump; each click is 0.001 inches.
- Always doublecheck your measurements before proceeding with reloading.
- Keep all tools and components away from heat sources and open flames.

## Instructions for Installation and Usage

### 1. Installation of the Die Set:

- Ensure your reloading press is clean and properly set up.
- Insert the Click Adjustable Bushing Full Length Sizer Die into the press and secure it according to the manufacturer's instructions.
- Attach the lock ring to ensure the die remains in place during use.

### 2. Adjusting the Shoulder Bump:

- Turn the adjustment knob of the die to achieve the desired shoulder bump. Each click represents a change of 0.001 inches.
- Use the Shoulder Bump Gauge to measure the distance from the case shoulder to the base accurately.

### 3. Using the Micrometer Adjustable Seating Die:

- Insert the micrometer adjustable seating die into the press.
- Adjust the seating depth according to your specific cartridge requirements.
- Ensure that the bullet is seated correctly and consistently.

### 4. Final Checks:

- Inspect all reloaded cartridges for proper sizing and seating before use.
- Store any unused components and tools safely after use.

## **Disposal Instructions**

- Dispose of any unused or expired components in accordance with local regulations.
- Do not dispose of reloading materials in regular household waste.
- Contact your local waste management facility for guidance on the proper disposal of hazardous materials.

## **Contact Information for Further Support**

For additional support or inquiries regarding this product, please refer to the manufacturer's website or contact your local distributor. Always ensure that your questions or concerns are addressed by professionals familiar with the product.

By following these safety instructions, you can ensure a safe and effective reloading experience with your Click Adjust Full Length Die Set. Thank you for your attention to these important safety guidelines.
