

# BUSHING NECK DIE SETS - L.E. WILSON 223 REMINGTON BUSHING NECK DIE KIT

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

L.E. Wilson's Bushing Neck Die Kit consists of a bushing-style neck resizing die and Wilson's precision stainless steel seater die. Wilson's Stainless Steel Seater Die has a micrometer top that lets you make fine adjustments of seating depth in precise .001" increments. The die holds bullet and case in perfect alignment as the bullet is seated in the case. This is a hand-die designed for use with a mallet or an arbor press. NOT for use on a conventional 7/8 press. Wilson's Bushing Neck Sizer Dies feature interchangeable bushings to size the outside of the case neck to 3/16" from the case mouth. This allows for total control as to the amount of neck sizing each case receives. Simply change the bushing to increase or decrease the neck-tension on the bullet. The L.E. Wilson Bushing Neck Die Kit are Hand-die design for use with a mallet or an arbor press. Not for use on a conventional press. Bushing sold separately, accepts L.E. Wilson, Redding, or Sinclair carbide bushings

## **L.E. WILSON 223 REMINGTON BUSHING NECK DIE KIT**

### **Introduction**

Thank you for choosing the L.E. Wilson Bushing Neck Die Kit. This guide provides essential safety instructions to ensure the safe use of this product. Please read and understand these instructions before using the die kit.

### **General Safety Guidelines**

- Ensure that the product is used in accordance with the manufacturer's instructions.
- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when using the die kit.
- Keep the die kit out of reach of children and vulnerable individuals.
- Regularly inspect the die kit for any signs of wear or damage before use.
- Store the die kit in a dry, cool place away from direct sunlight and moisture.
- Report any unsafe conditions or accidents to the appropriate authorities.

### **Specific Safety Precautions for Use**

- This die kit is designed for handdie use only. Do not use it on a conventional 7/8 press.
- Use a mallet or an arbor press as instructed. Avoid using excessive force that may damage the die.
- Ensure that the bushing is properly seated and secured before resizing the neck of the case.
- Check that the bullet and case are aligned correctly before seating the bullet.
- Do not exceed the recommended sizing limits to prevent damage to the die or cases.
- Avoid using damaged or worn bushings, as they may lead to improper sizing and unsafe conditions.

### **Instructions for Installation and Usage**

#### **1. Preparation:**

- Gather all necessary tools and materials, including the die kit, mallet or arbor press, and cases to be resized.
- Ensure that your workspace is clean and organized.

#### **2. Installation of the Bushing:**

- Select the appropriate bushing for your desired neck size.
- Insert the bushing into the neck resizing die, ensuring it is securely in place.

#### **3. Resizing the Neck:**

- Place the case into the die and ensure it is properly aligned.
- Use the mallet or arbor press to apply steady pressure until the neck is resized.
- Remove the case and check for proper sizing.

#### **4. Seating the Bullet:**

- Place the resized case into the seater die.
- Insert the bullet into the case mouth, ensuring it is properly aligned.
- Adjust the micrometer top for desired seating depth, making fine adjustments as needed.

- Apply steady pressure with the mallet or arbor press to seat the bullet.

#### 5. PostUse:

- Inspect the die kit and bushings for any signs of damage or wear.
- Clean the die kit and store it properly for future use.

## Disposal Instructions

- Dispose of any damaged or unusable parts of the die kit in accordance with local regulations.
- Recycle packaging materials where possible.
- Do not dispose of the die kit in regular household waste if it contains hazardous materials.

## Contact Information for Further Support

For any safety inquiries or additional support regarding the L.E. Wilson Bushing Neck Die Kit, please refer to the manufacturer's official contact points. It is essential to reach out for assistance if you encounter any safety concerns or require further clarification on the use of this product.

By following these safety instructions, you can ensure a safe and effective experience with the L.E. Wilson Bushing Neck Die Kit. Always prioritize safety and report any issues to the relevant authorities. Thank you for your attention to these important guidelines.
