

45-90 WINCHESTER (2.4") BRASS - STARLINE 45-90 WINCHESTER BRASS 100/BAG

[Reloading](#) > [Brass](#) > [Rifle Brass](#)

This is a .45-70 based case that is 2.4 inches long and is suitable for smokeless or black powder loads. When loading with black powder, annealing of mouth may be necessary to allow case to properly seal chamber due to lower pressures generated by these loads. Starline is a family owned business and prides itself on producing the highest quality brass case available. With a production process focused on quality not quantity, Starline makes the finest brass and has for more than 40 years out of their state-of-the-art manufacturing facility in Sedalia, MO.

Safety Instruction Guide for 4590 Winchester (2.4") Brass

Introduction

Thank you for choosing the 4590 Winchester Brass manufactured by Starline. This product is designed for use in firearms and should be handled with care. This guide provides essential safety instructions to ensure the safe use of this product in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Always treat all firearms and ammunition as if they are loaded.
- Keep the product out of reach of children and unauthorized users.
- Use the product only in accordance with the manufacturer's instructions.
- Inspect the brass cases for any signs of damage or wear before use.
- Store the brass in a cool, dry place away from direct sunlight and moisture.
- Follow local laws and regulations regarding the use and storage of ammunition components.

Specific Safety Precautions for Use

- Ensure that your firearm is compatible with the .4590 Winchester brass before use.
- When loading with black powder, annealing of the mouth may be necessary to ensure proper sealing of the chamber.
- Avoid using damaged or deformed brass cases, as they can lead to firearm malfunctions.
- Always wear appropriate safety gear, including eye and ear protection, when handling firearms and ammunition.
- Be aware of your surroundings and ensure that you are in a safe environment when using firearms.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary materials, including the brass cases, powder, primers, and projectiles.
- Ensure your workspace is clean and organized.

2. Loading the Brass:

- Carefully inspect each brass case for any defects.
- If necessary, anneal the mouth of the case when using black powder.
- Follow standard reloading procedures for filling the brass cases with powder and seating the projectile.

3. Firing:

- Load the completed cartridges into your firearm according to the manufacturer's guidelines.
- Ensure the firearm is pointed in a safe direction before firing.
- Only fire ammunition in firearms that are specifically designed for .4590 Winchester.

4. PostUse:

- After use, inspect the brass cases for signs of wear or damage.
- Clean the brass cases as necessary for future use.

Disposal Instructions

- Dispose of used brass cases in accordance with local regulations.
- Do not dispose of brass cases in regular household waste.
- Consider recycling options for spent brass, as many facilities accept it for recycling.

Contact Information for Further Support

For safety inquiries or concerns regarding the 4590 Winchester Brass, please refer to the manufacturer's contact information provided with your product packaging.

Conclusion

By following these safety instructions, you can ensure a safe and enjoyable experience with your 4590 Winchester Brass. Always prioritize safety and adhere to best practices when handling firearms and ammunition. Thank you for choosing Starline.
