# Safety Instruction Guide for .308 Winchester Brass by Peterson Cartridge

## Introduction

Thank you for choosing the .308 Winchester Brass by Peterson Cartridge. This guide provides essential safety instructions and guidelines to ensure safe handling and usage of the product. By following these instructions, you help maintain a safe environment for yourself and others.

## General Safety Guidelines

- Always handle ammunition and reloading components with care and respect.
- Ensure that you are familiar with local laws and regulations regarding ammunition and reloading.
- Keep ammunition out of the reach of children and unauthorized individuals.
- Inspect all brass casings before use for any signs of damage or wear.
- Store brass in a cool, dry place to prevent corrosion and degradation.
- Report any unsafe products or accidents to the appropriate authorities.
- Stay updated on recall notices and product safety updates through the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Use only the recommended primers for the .308 Winchester Brass to avoid ignition issues.
- Ensure that your reloading equipment is in good working order and properly calibrated.
- Always wear appropriate safety gear, including eye protection and hearing protection, when reloading.
- Do not exceed recommended load limits when reloading to avoid dangerous pressure levels.
- Keep your work area clean and free of clutter to minimize risks while reloading.
- Never mix different brands or types of brass to maintain consistency and safety.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary materials: .308 Winchester Brass, primers, powder, projectiles, and reloading equipment.
- Ensure your workspace is clean and wellventilated.

### 2. Inspecting Brass:

- Check each casing for signs of damage, such as cracks or dents.
- Clean the brass to remove any debris or contaminants.

### 3. Priming:

- Insert the appropriate primer into the primer pocket of the brass casing.
- Ensure that the primer is seated correctly and flush with the casing head.

### 4. Charging:

- Measure and add the correct amount of powder to each casing, following load data from reliable sources.
- Doublecheck each charge to avoid overloading.

### 5. Seating Projectiles:

- Place the projectile on top of the charged casing.
- Use a reloading press to seat the projectile to the recommended depth.

#### **6. Final Inspection:**

- Inspect the completed cartridges for consistency and quality.
- Store completed cartridges in a safe and organized manner.

## **Disposal Instructions**

- Dispose of any damaged or unusable brass in accordance with local regulations.
- Do not throw brass casings into regular waste; check for recycling programs in your area.
- Follow safety guidelines for disposing of any hazardous materials, such as unused primers or powder.

## **Contact Information for Further Support**

For any safety inquiries or further assistance, please refer to your local authorities or the relevant regulatory bodies. Ensure you have the necessary contact information for immediate support.

By adhering to these guidelines, you will help ensure a safe and enjoyable experience with your .308 Winchester Brass by Peterson Cartridge. Thank you for your attention to safety.
