

375 CALIBER (0.375") SINGLE FEED MTAC BULLETS - CUTTING EDGE BULLETS MTAC 375 CALIBER (0.375") LEAD FREE HP 352GR 50/BOX

[Reloading](#) > [Bullets](#) > [Rifle Bullets](#)

The Cutting Edge MTAC line of bullets are machined out of lead free solid copper bar stock on a CNC swiss lathe. These are a high BC, solid bullet designed exclusively for target use at all ranges. A unique feature of this bullet is their patented SealTite™ band which is a band slightly larger than caliber diameter around the bullet which was designed to eliminate fliers by preventing gas blow-by. The SealTite™ band also decreases copper fouling which is typically associated with mono metal bullets. The required twist rate for this bullet is 1:11" or faster. Due to their length, these MTAC bullets are designed to be single fed.

Attributes

- Name: [CUTTING EDGE BULLETS MTAC 375 CALIBER \(0.375"\) LEAD FREE HP 352GR 50/BOX](#)
- Manufacturer: [CUTTING EDGE BULLETS](#)
- Product no.: 749018331
- Mfr. No.: MTAC 375 352 MA
- Ballistic Coefficient (G1): 0.890
- Ballistic Coefficient (G7): 0.423
- Brand Style: MTAC
- Bullet Style: Copper Hollow Point
- Caliber: 375 Caliber
- Diameter (in): 0.375
- Grain: 352
- Quantity: 50
- Delivery weight: 1.361kg
- Shipping height: 76mm
- Shipping width: 76mm
- Shipping length: 140mm
- UPC: 812191021616

Cutting Edge Bullets MTAC 375 Caliber Safety Instruction Guide

Introduction

Thank you for choosing the Cutting Edge MTAC 375 Caliber (0.375") Single Feed Bullets. This guide provides essential safety instructions to ensure the safe use of this product. Please read this guide carefully before using the bullets. Your safety is our priority.

General Safety Guidelines

- Ensure that you are familiar with the handling and use of ammunition before using this product.
- Always store ammunition in a cool, dry place, away from children and unauthorized users.
- Follow all local laws and regulations regarding the use and storage of ammunition.
- Use appropriate personal protective equipment (PPE) such as safety glasses and hearing protection when handling or firing ammunition.
- Regularly inspect your firearm and ammunition for any signs of damage or defects.
- In case of any accidents or malfunctions, cease use immediately and consult a qualified gunsmith.

Specific Safety Precautions for Use

- Only use this ammunition in firearms specifically designed for the 375 caliber.
- Ensure that the firearm is in good working condition and properly maintained.
- Do not exceed the recommended twist rate of 1:11" for this bullet.
- Be aware of your surroundings and ensure a safe shooting environment.
- Avoid using these bullets in wet or damp conditions, as moisture can affect performance.
- Do not modify or alter the bullets in any way, as this may compromise safety and performance.

Instructions for Installation and Usage

• Installation:

- Load the bullets according to your firearm's manufacturer instructions.
- Ensure that the bullets are seated properly in the chamber.
- Check that the firearm is unloaded before handling and loading the bullets.

• Usage:

- Always point the firearm in a safe direction when loading and unloading.
- Keep your finger off the trigger until you are ready to fire.
- Follow the shooting range rules or guidelines if using in a public facility.
- After firing, inspect your firearm and ammunition for any signs of damage.

Disposal Instructions

- Dispose of used or damaged ammunition in accordance with local regulations.
- Do not throw bullets in regular trash; instead, contact local waste management authorities for proper disposal methods.
- If you encounter any defective bullets, do not attempt to fire them. Follow local guidelines for the disposal of hazardous materials.

Contact Information for Further Support

For any safety inquiries or further assistance regarding the Cutting Edge MTAC 375 Caliber bullets, please contact your local distributor or authorized dealer.

Conclusion

By following these safety instructions, you can help ensure a safe and enjoyable experience with your Cutting Edge MTAC 375 Caliber bullets. Always prioritize safety and stay informed about best practices for ammunition handling. Thank you for your commitment to safe shooting practices.
