## **Shoot Accurately With New Tipped MatchKing Rounds**

When it comes to producing the best-possible match ammunition, today's precision shooters often turn to Sierra Bullets and the company's popular MatchKing lineup. Now, Sierra made its top-tier projectile even better with an all-new Tipped MatchKing (TMK) collection of bullets. Each Sierra Tipped MatchKing round is topped with a special tip made from acetal resin. This new design provides improved aerodynamic efficiency, reducing bullet drag and creating a better ballistic coefficient. The rounded profile of the projectile also enables it to feed better from a magazine. Bullet diameter: .224 inch Bullet weight: 60 grains Quantity: 100 or 500 rounds Sierra recommends that those who use their Sierra Tipped MatchKing rounds stick with target shooting or hunting animals no larger than varmints, due to the thicker jacket on these rounds.

## **Attributes**

# TIPPED MATCHKING 22 CALIBER BULLETS Safety Instruction Guide

## Introduction

Thank you for choosing the TIPPED MATCHKING 22 CALIBER (0.224") BULLETS. These precisionengineered bullets are designed for target shooting and hunting. To ensure safe and effective use, please read this safety instruction guide carefully.

## General Safety Guidelines

- Ensure that you are familiar with the laws and regulations regarding ammunition in your area before purchasing or using this product.
- Always store ammunition in a cool, dry place, away from direct sunlight and moisture.
- Keep ammunition out of reach of children and unauthorized users.
- Inspect ammunition for any signs of damage or defects before use. If any issues are detected, do not use the ammunition and contact a qualified professional.
- Use appropriate personal protective equipment (PPE), including safety glasses and hearing protection, when handling and shooting.

## Specific Safety Precautions for Use

- Only use TIPPED MATCHKING bullets in firearms that are specifically chambered for .22 caliber ammunition.
- Ensure that your firearm is in good working condition and has been properly maintained.
- Always follow the manufacturer's safety instructions for your firearm.
- Do not exceed the recommended load specifications for your firearm.
- Avoid using this ammunition for hunting animals larger than varmints, as it is designed for precision shooting and may not be suitable for larger game.
- Be aware of your surroundings and ensure a clear shooting area before firing.
- Never point a firearm at anything you do not intend to shoot.

## Instructions for Installation and Usage

- Before loading your firearm, ensure it is pointed in a safe direction and the safety is engaged.
- Load the TIPPED MATCHKING bullets into the magazine according to your firearm's specifications.
- After loading, ensure the firearm is ready for use by following the manufacturer's instructions.
- When ready to shoot, disengage the safety and aim carefully at your target.
- After firing, always keep the firearm pointed in a safe direction and engage the safety before unloading.
- Store any unused ammunition in its original packaging, ensuring it is secure and stored safely.

## Disposal Instructions

- Dispose of any unused or expired ammunition in accordance with local regulations.
- Do not throw ammunition in the trash. Contact local authorities or waste disposal services for proper disposal methods.
- If you have any damaged or defective ammunition, do not attempt to disassemble or dispose of it yourself. Seek guidance from a qualified professional.

## Contact Information for Further Support

For any safety inquiries or concerns regarding the TIPPED MATCHKING bullets, please refer to the manufacturer's website or contact their customer service for assistance.

By following these guidelines, you can ensure a safe and enjoyable experience with your TIPPED MATCHKING 22 CALIBER bullets. Thank you for your attention to safety.
