

# COMPETITION SEATER DIES - REDDING 224 VALKYRIE BULLET SEATING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

We feel the Redding Competition Bullet Seater is the best bullet 7/8-14 bullet seater on the market today. The machining is precise, and the sliding chamber is the smoothest we have ever experienced in a seater. This micrometer-adjustable die is calibrated in .001"" increments for precise seating depth adjustments and is infinitely adjustable (no clicks). It also has a zero set feature that allows you to zero the micrometer to your favorite seating depth. Sold separately or as part of a set. Also available for handgun and straight wall cartridges.

# Safety Instruction Guide for the Redding Competition Seater Die 224 Valkyrie

## Introduction

Thank you for choosing the Redding Competition Bullet Seater Die for your reloading needs. This guide provides essential safety instructions and guidelines to ensure safe and effective use of the product. Please read this guide carefully and keep it for future reference.

## General Safety Guidelines

- Ensure that all reloading equipment is used in accordance with the manufacturer's instructions.
- Always wear appropriate safety gear, including eye protection and gloves, when handling ammunition and reloading components.
- Keep the work area clean and organized to prevent accidents.
- Store all reloading components, including dies, in a secure location away from children and unauthorized users.
- Regularly inspect your equipment for wear and tear, and replace any damaged components immediately.
- Be aware of local laws and regulations regarding the use and storage of ammunition and reloading supplies.

## Specific Safety Precautions for Use

- Only use the Redding Competition Bullet Seater Die with compatible cartridges (224 Valkyrie).
- Ensure that the die is securely mounted in the press before use.
- Do not exceed the recommended seating depth adjustments. Follow the micrometer settings for precise adjustments.
- Avoid distractions while reloading to maintain focus on the task at hand.
- If you experience any unusual resistance or issues while using the die, stop immediately and inspect for potential problems.
- Do not attempt to modify or alter the die in any way, as this can lead to unsafe conditions.

## Instructions for Installation and Usage

### 1. Installation:

- Begin by ensuring that your reloading press is clean and free of debris.
- Carefully screw the Redding Competition Bullet Seater Die into the press's die holder, ensuring it is tightly secured.
- Set the desired seating depth using the micrometer adjustment feature, calibrated in .001 inches.
- Utilize the zero set feature to establish a baseline for your preferred seating depth.

### 2. Usage:

- Prepare your brass cases and ensure they are clean and properly sized.
- Place a bullet on the case mouth and position it under the die.
- Slowly pull the press handle to lower the die onto the bullet, ensuring smooth operation throughout the process.
- Monitor the seating depth with the micrometer and make adjustments as necessary.
- After seating, inspect the cartridges to ensure proper seating and alignment.

## Disposal Instructions

- Dispose of any damaged or unused reloading components in accordance with local regulations.
- Do not throw away the die or other equipment in regular trash. Consult local waste management authorities for proper disposal methods.
- Recycle materials where possible, following guidelines for metal and plastic recycling.

## Contact Information for Further Support

For safety inquiries or additional support, please refer to the manufacturer's contact details provided with your product packaging or on the manufacturer's website.

## Conclusion

By following these safety guidelines and instructions, you can ensure a safe and effective reloading experience with the Redding Competition Bullet Seater Die. Always prioritize safety and adhere to best practices while reloading. Thank you for choosing Redding.
